Western Political Thought Brian R. Nelson, 2015

Jacob Burckhardt's Social and Political Thought Richard Franklin Sigurdson, 2004-01-01 Contrary to his usual portrayal as a disinterested aesthete Swiss cultural historian Jacob Burckhardt is characterised as an original social and political thinker in Richard Sigurdson s timely book **Jacob Burckhardt s Social and Political Thought** Burckhardt s thinking on a number of ideas including the relationship between the individual and the mass the tension between the ideals of equality and human excellence and the role of the intellectual in the modern state is the subject of insightful analysis thus providing a rare investigation into Burckhardt s culture critique of the nineteenth century Other important aspects of Burckhardt s life that undoubtedly influenced both his historical and political thought such as his ambiguous relationship with Friedrich Nietzsche are carefully scrutinised in this groundbreaking analysis of the Swiss historian Known primarily as an historian Burckhardt s historical writings provide not only a powerful critique of his own times but also a broad ranging political philosophy that can be placed within the larger German tradition of evaluating politics according to the values and standards of art and culture Although Burckhardt himself expressed his scepticism towards general theories and claimed to be devoid of a personal philosophical position through an examination of his works Sigurdson argues that both implicit and explicit political reflections and theories are recognisable

Lineages of European Political Thought Cary J. Nederman, 2009-04 This book examines some of the salient historiographical and conceptual issues that animate current scholarly debates about the nature of the medieval contribution to modern Western political ideas

Approaches to Political Thought William L. Richter, 2009-03-16 This book focuses on the ways in which major contemporary scholars approach political thought and writing from Plato to the present

Ethical Thought Venkata Mohan, 2017-10-30 Why is a certain behavior considered ethical By what processes does a certain behavior become ethical Why are some people more capable of behaving ethically This book discusses questions such as these with the help of the perspectives drawn from three distinct fields Religion Philosophy and Neuroscience Theorists from the ancient to the recent from the Buddha and Socrates to Antonio Damasio are covered

Medieval Aristotelianism and its Limits Cary J. Nederman, 2024-10-28 This volume

deals with the development of moral and political philosophy in the medieval West Professor Nederman is concerned to trace the continuing influence of classical ideas but emphasises that the very diversity and diffuseness of medieval thought shows that there is no single scheme that can account for the way these ideas were received disseminated and reformulated by medieval ethical and political theorists Classical Debates for the 21st Century Thomas O. Hueglin,2008-01-01

Reconsiders the canon of political thought in the context of current world events by presenting debates between the ideas of classical theorists *The Making of the Modern State* B. Nelson,2006-03-15 Nelson provides a historical overview of the theoretical and ideological evolution of the modern state from pre state and pre modern state formations to the present A major theme of the book is the need to understand the modern state holistically as a totality of social political and ideological factors **American Journal of Islamic Social Sciences 18:4** Eltigani Abdulqadir Hamid,M. Kabir Hassan & Faridul Islam,Larry Poston,Abdelilah Bouasria,Yasien Mohamed, The American Journal of Islamic Social Sciences AJISS established in 1984 is a quarterly double blind peer reviewed and interdisciplinary journal published by the International Institute of Islamic Thought IIIT and distributed worldwide The journal showcases a wide variety of scholarly research on all facets of Islam and the Muslim world including subjects such as anthropology history philosophy and metaphysics politics psychology religious law and traditional Islam Iran Ramin Jahanbegloo,2004-03-27 The Iranian Revolution represented to intellectuals and professionals the potential of spiritual values to triumph over the great power of economic imperialism Yet out of this revolution has emerged an identity crisis that touches Islamic ideological heights and reaches down to the very ground of Islamic practice The contributors to this collection experts on Iranian cultural and political history analyze the fragmented self of today's Iranian refracted through that country's institutions market forces and modern thought Each essay both deepens our understanding of contemporary Iran and adds to the broader discussion of the relationship between Islam and the West *Primo Levi and the Politics of Survival* Frederic D. Homer,2001 At the age of twenty five Primo Levi was sent to Hell Levi an Italian chemist from Turin was one of many swept up in the Holocaust of World War II and sent to die in the German concentration camp in Auschwitz Of the 650 people transported to the camp in his group only 15 men and 9 women survived After Soviet liberation of the camp in 1945 Levi wrote books essays short stories poetry and a novel in which he painstakingly described the horrors of his experience at Auschwitz He also spent the rest of his life struggling with the fact that he was not among those who were killed In *Primo Levi and the Politics of Survival* Frederic D Homer looks at Primo Levi's life but more important shows him to be a significant political philosopher In the course of his writings Levi asked and answered his most haunting question can someone be brutalized by a terrifying experience and upon return to ordinary life recover from the physical and moral destruction he has suffered Levi used this question to develop a philosophy positing that although man is no match for life he can become better prepared to contend with the tragedies in life According to Levi the horrors of the world occur because of the strength of human tendencies which make relationships between human beings

exceedingly fragile He believed that we are ill constituted beings who have tendencies toward violence and domination dividing ourselves into Us and Them with very shallow loyalties He also maintained that our only refuge is in education and responsibility which may counter these tendencies Homer calls Levi s philosophy optimistic pessimism As Homer demonstrates Levi took his past experiences into account to determine that goodwill and democratic institutions do not come easily to people Liberal society is to be earned through discipline and responsibility toward our weaknesses Levi s answer is civilized liberalism To achieve this we must counter some of our most stubborn tendencies Homer also explores the impact of Levi s death an apparent suicide on the way in which his work and theories have been perceived While several critics discount Levi s work because of the nature of his death Homer argues that his death is consistent with his philosophy A book rich in brutally honest philosophy Primo Levi and the Politics of Survival compels one to look at serious questions about life tragedy optimism solidarity violence and human nature *Civilizations and World Order* Fred Dallmayr,M. Akif

Kayapinar,Ismail Yaylaci,2014-09-24 *Civilizations and World Order* Geopolitics and Cultural Difference examines the role of civilizations in the context of the existing and possible world order s from a cross cultural and inter disciplinary perspective Contributions seek to clarify the meaning of such complex and contested notions as civilization order and world order they do so by taking into account political economic cultural and philosophical dimensions of social life The book deals with its main theme from three angles or vectors first the geopolitical or power political context of civilizations secondly the different roles of civilizations or cultures against the backdrop of post coloniality and Orientalism and thirdly the importance of ideological and regional differences as factors supporting or obstructing world order s All in all the different contributions demonstrate the impact of competing civilizational trajectories on the functioning or malfunctioning of contemporary world order

Conscience in Politics Jurg Steiner,2013-10-28 First published in 1996 What Jurg Steiner has done with this book takes more than a pinch of professional courage He is asking us to consider seriously the possibility that politicians make choices of conscience daily and that such choices frequently override considerations of partisanship and personal advantage
