For courses in General Organic and Biological Chemistry 2 Semester A Clear Flexible Approach to Chemistry for the Modern Classroom Active learning an increased focus on clinical examples updates based on current teaching and research findings and digital innovations designed to engage and personalize students experience make Fundamentals of General Organic and Biological Chemistry simply the best choice for students with a future in allied health. With the Eighth Edition the authors make learning chemistry a more active experience through features designed to get students doing chemistry. Every chapter features Hands on Chemistry sections that deepen students understanding of chemistry by having them perform elementary experiments with everyday household items. Group Problems at the end of every chapter are designed for in class use and motivate students toward higher level thinking such as how concepts fit together and how to apply these concepts in a clinical application. All of the chapter openers including many of the Chemistry in Action boxes and end of chapter problems have been rewritten for a stronger clinical focus that provides more relevance to allied health majors. All content has been updated for the modern classroom with special attention to the biochemistry chapters making the Eighth Edition of Fundamentals of General Organic and Biological Chemistry the best choice for future allied health students. This edition is fully integrated with MasteringChemistry to provide an interactive and engaging experience. Media resources include narrated Video Tutor Solutions for every book chapter that present how to work the most challenging problems and feature additional feedback and instruction from contributor Sara Madsen. NEW in MasteringChemistry is the Chemistry Primer a diagnostic and remediation tool that provides a pre built assignment designed to get students up to speed on Chemistry and Math skills at the beginning of the course so they come to class prepared to delve more deeply into topics. Also available with MasteringChemistry™ MasteringChemistry is the leading online homework tutorial and assessment system designed to improve results by engaging students before during and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class and they encourage critical thinking and retention with in class resources such as Learning Catalytics™. Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions. Mastering brings learning full circle by continuously adapting to each student and making learning more personal than ever before during and after class.
