Monstrous Liminality Robert G. Beghetto, 2022-01-24 This book examines the transformation of the figure of the stranger in the literature of the modern age in terms of liminality As a spectral monster that has a paradoxical and liminal relationship to both the sacred and the secular the figure of the modern stranger has played a role in both adapting and shaping a culturally determined understanding of the self and the other With the advent of modernity the stranger the monster and the spectre became interconnected Haunting the edges of reason while also being absorbed into normal society all three together with the cyborg manifest the vulnerability of an age that is fearful of the return of the repressed Yet these figures can also become re appropriated as positive symbols able to navigate between the dangerous and chaotic elements that threaten society while serving as precarious and ironic symbols of hope or sustainability The book shows the explanatory potential of focusing on the resacralizing in a paradoxical and liminal manner of traditionally sacred concepts such as messianic time and the utopian and the conflicts that emerged as a result of secularized modernity s denial of its own hybridization This approach to modern literature shows how the modern stranger a figure that is both paradoxically immersed and removed from society deals with the dangers of failing to be re assimilated into mainstream society and is caught in a fixed or permanent state of liminality a state that can ultimately lead to boredom alienation nihilism and failure These monstrous aspects of liminality can also be rewarding in that traversing difficult and paradoxical avenues they confront both traditional and contemporary viewpoints enabling new and fresh perspectives suspended between imagination and reality past and future nature and artificial In many ways the modern stranger as a figure of literature and the cultural imagination has become more complicated and challenging in the post modern contemporary age both clashing with and encompassing people who go beyond simply the psychological or even spiritual inability to blend in and out of society However while the stranger may be altering once again the defining or essentializing the figure could result in the creation of other sets of binaries and thereby dissolve the purpose and productiveness of both strangeness and liminality The intention of *Monstrous Liminality* is to trace the liminal sphere located between the secular and sacred that has characterized modernity itself This space has consequently altered the makeup of the stranger from something external into a figure far more liminal which is forced to traverse this uncanny space in an attempt to find new meanings for an age that is struggling to maintain any

Enlightenment: Paradoxes in the Life of the Body Politic Diana K. Reese, 2010-01-13 Written at the crossroads of aesthetics and politics Reproducing Enlightenment Paradoxes of the Body Politic interrogates the abstraction of the bearer of rights in

Enlightenment thought by exploring contradictions between reproductive labor and political representation in the ideal of democratic citizenship Drawing parallels between new definitions of biological form in Kant's Critique of Judgment and his popular writings on Enlightenment Reese's study reveals connections between naturalist inquiry and the political category of self-evidence around the turn of the 19th century Pursuing this connection into Weimar Classical era aesthetics Reese's scholarship sets the backdrop against which she proposes to read the formal literary innovations of Mary Shelley and Heinrich von Kleist The careful comparison of textual compositions by Shelley and Kleist shows how these two authors refuse organicist metaphor and excavate the paradoxes of Enlightenment attempts to theorize the equality of a disembodied subject Reproducing Enlightenment traces two anti-classical poetics that arc beyond the concept of juridical and biological self-evidence to touch the dialectics and dilemmas of recognition at the foundation of social being

In Frankenstein's Wake Alison Bedford, 2021-01-11 Just over 200 years ago on a stormy night a young woman conceived of what would become one of the most iconic images of science gone wrong the story of Victor Frankenstein and his Creature For a long period Mary Shelley languished in the shadow of her luminary husband Percy Bysshe Shelley but was rescued from obscurity by the feminist scholars of the 1970s and 1980s This book offers a new perspective on Shelley and on science fiction arguing that she both established a new discursive space for moral thinking and laid the groundwork for the genre of science fiction Adopting a contextual biographical approach and undertaking a close reading of the 1818 and 1831 editions of the text give readers insight into how this story synthesizes many of the concerns about new science prevalent in Shelley's time Using Michel Foucault's concept of discourse the present work argues that Shelley should be not only credited with the foundation of a genre but recognized as a figure who created a new cultural space for readers to explore their fears and negotiate the moral landscape of new science

Women's Vision in Western Literature Laurence M. Porter, 2005-02-28 From ancient Greece through the present day women writers have confronted the male urge to make war by imagining communities in which intuitive bonding among individuals questions and replaces masculinist values of aggression and competition Women's Vision in Western Literature traces the gender gap in literature from 600 B.C. to the present day through an examination of seven extraordinary women writers from Sappho to Christa Wolf Combining close readings with a comprehensive overview of the careers of these women Porter shows how the threat the experience and the aftermath of war incites them to imagine tolerant empathic communities This careful consideration of these seven great writers brings to light an underappreciated aspect of Western women's writing Starting with Sappho Porter illustrates this ancient poet's ability to rewrite the Homeric war rhetoric to reflect a non-possessive love experience Marie de France arranges traditional animal fables to imply an open-ended situation ethics according to the author and Madame de Staël in a Europe torn by Napoleonic conquests advocates cross-cultural unions among countries In the works of Mary Shelley we see the warnings of the dangers of vainglorious

soulless technology and Virginia Woolf depicts intuitive bonding beyond gender stereotypes amid the ruins of war and crumbling empire He shows how Marguerite Yourcenar dreams of a new era of world peace after Hitler's defeat and how Christa Wolf tries to cope with her country's Nazi past even as she reaffirms European identity threatened by annihilations in nuclear conflict
