Gallo, 2015-08-11 In No One Helped Marcia M Gallo examines one of America's most infamous true crime stories the 1964 rape and murder of Catherine Kitty Genovese in a middle class neighborhood of Queens New York Front page reports in the New York Times incorrectly identified thirty eight indifferent witnesses to the crime fueling fears of apathy and urban decay Genovese's life including her lesbian relationship also was obscured in media accounts of the crime Fifty years later the story of Kitty Genovese continues to circulate in popular culture Although it is now widely known that there were far fewer actual witnesses to the crime than was reported in 1964 the moral of the story continues to be urban apathy No One Helped traces the Genovese story's development and resilience while challenging the myth it created No One Helped places the conscious creation and promotion of the Genovese story within a changing urban environment Gallo reviews New York's shifting racial and economic demographics and explores post World War II examinations of conscience regarding the horrors of Nazism These were important factors in the uncritical acceptance of the story by most media political leaders and the public despite repeated protests from Genovese's Kew Gardens neighbors at their inaccurate portrayal The crime led to advances in criminal justice and psychology such as the development of the 911

emergency system and numerous studies of bystander behaviors Gallo emphasizes that the response to the crime also led to increased community organizing as well as feminist campaigns against sexual violence Even though the particulars of the sad story of her death were distorted Kitty Genovese left an enduring legacy of positive changes to the urban environment

The Why Axis Uri Gneezy, John List, 2013-10-15 Two of Forbes magazine's world's most powerful economists provide the breakthrough ideas to challenge the assumptions of human decision making Can economics be passionate Can it centre on people and what really matters to them And can it help us understand why they do what they do in everyday life Two revolutionary economists believe it can In *The Why Axis* Uri Gneezy and John List lead us on a journey to discover the economics underlying human motivation and how to structure the incentives that can get people to move mountains Finding the right incentive can be like looking for a needle in a haystack but Gneezy and List have pioneered an innovative approach to zeroing in on those needles Like other economists they gather data and build models but then they go much much further embedding themselves in our messy world the factories schools communities and offices where people live work and play Their goal to discover solutions to the big difficult problems such as the gap between rich and poor the violence plaguing inner city schools why people really discriminate and whether women are really less competitive than men Their revelatory and startling discoveries about how incentives really work are both groundbreaking and immensely practical This research will change the way we both think about and take action on big and little problems Anyone working in business politics education or philanthropy can use the approach Gneezy and List describe in *The Why Axis* to reach a deeper more nuanced understanding of human behaviour and a better grasp of what motivates people and why

Radical Islam in the West

Brian R. Farmer, 2014-01-10 This book explores the challenge posed by the immersion of 15 million Muslims in Western democracies and the few but volatile terrorists present within the larger body of believers The fact that immersion in Western culture is insufficient to stem the tide of extremism is discussed along with the factors that contribute to the growth of radical Islam such as the presence of charismatic authoritarian leadership educational options that downplay critical thinking and colonialism Hope that radical Islam can be kept to a minimum in Western societies is provided by the Islamic concept of *Ijtihad* through which Muslims reinterpret their own religion Just as mainstream Mormons have dispensed with polygamy and Christians with witch hunting Muslims in Western societies have the potential to minimize the growth of radicalism Instructors considering this book for use in a course may request an examination copy here

The Profile of Political Leaders Jaap van Ginneken, 2016-06-30 By analysing a wide range of empirical research into leadership this book provides a composite portrait of frequent characteristics such as personality and demeanour that influence both the success and popularity of political leaders Through the lenses of mass psychology and collective behaviour sociology the author offers fascinating observations on political leadership which reveal a coherent pattern In our choice of and support for leaders we still seem to be guided by unconscious or instinctive preferences Evolutionary psychologists have labelled this CALP for

Cognitive Ancestral Leadership Prototype Length symmetry face form voice pitch eye blinking and more turn out to play a role even today alongside personality and style Each chapter of the book offers a case study to illustrate these observations including Barack Obama Ronald Reagan Nicolas Sarkozy and Boris Johnson This book is accessibly written to appeal to students of politics psychology and sociology as well as the wider interested reader **The Publishers Weekly** ,2010

Think Like a Freak: a 30-Minute Summary of Steven D. Levitt and Steven J. Dubner's Book InstaRead

Summaries Staff,2014-06-13 PLEASE NOTE This is a summary of the book and NOT the original book Think Like a Freak A 30 minute Summary of Steven D Levitt and Steven J Dubner's book Inside this Instaread Summary Overview of the entire book Introduction to the Important people in the book Summary and analysis of all the chapters in the book Key Takeaways of the book A Reader's Perspective Preview of this summary Chapter 1 After writing Freakonomics and Superfreakonomics Steven Levitt and Stephen Dubner were asked many questions about how to deal with a wide variety of problems Since problem solving is difficult and time consuming they decided to write a book to teach thinking skills instead of trying to offer solutions to specific problems The first important idea to keep in mind is that selfish incentives are not as effective as communal incentives when considering how to solve a problem Most people tend to put their own interests before the interests of others This is human nature and often makes it difficult to get several people to move in the same direction towards a specific goal There is no right or wrong way to think about solving a problem In the modern world people must become more productive creative and rational in their thinking The first two books written by Levitt and Dubner were based on a few basic ideas First incentives are the foundation of modern life and figuring them out is the key to understanding and solving any problem Next conventional wisdom often turns out to be incorrect and blindly following it can lead to disastrous outcomes Finally correlation does not equal causality In other words just because two things are identified together does not

mean that one causes the other This book builds on these three basic principles but is more prescriptive than the previous two titles The book is inspired by an economic approach relying on data rather than an ideology to understand how the world works how resources are allocated and the obstacles that can get in the way of getting resources to those who need them The good news is that thinking like a freak is so easy that anyone can do it The question is why so few people actually do it
