From Colonial Administration To Development Management:

From Colonial Administration to Development Management William N. Cooke, 2001 The New Development Management Sadhvi Dar, Professor Bill Cooke, 2013-07-18 Development management is an idea that blends the seemingly innocuous claims of managerialism with notions of modernity and utopian ideals of third world progress This book views both phenomena as problematic and modernizing interventions In doing so it overturns and reclaims such ideas as participation community governance NGOs and civil society The contributors argue that the practices of development are often threaded together by the language of managerialism reports logframe encounters with the boss yet all of these serve to further development's disengagement from the mundane In voicing such concerns about the way development is going and about the encroachment of managerialism The New Development Management will breathe fresh life into post development debates
