important gap in the current leadership literature in that it gets down and dirty with the very real issues that first time managers face in today's workplace. These new leaders don't craft long term strategies or issue inspiring missives to hundreds of eager troops. Neither do they testify before congressional committees nor appear as public spokespersons for this or that glamorous product. They are the managers who strive each day, often with limited resources, to meet the high production standards set by those in the C-suite. From how to manage relationships with direct reports who used to be that manager's peers to how to delegate tasks to how to build effective teams and better manage one's time, *How to Win* takes the reader into the daily exchanges between a new manager and her veteran coach as they explore the various roles all managers are expected to play.
