Private Autonomy in EU Internal Market Law Rufat Babayev, 2024-04-04. Ambitious and innovative, this important study offers a fresh perspective on the normative framework of the EU's internal market. The book explores the place of the ideals of private autonomy in the EU's legal order. Indeed, it goes further to explore the parameters of their protection within both its legal and regulatory framework. Looking at the coexistence of and interaction between varying expressions of private autonomy, it offers a comprehensive review of the protection of private autonomy at the normative core of the internal market. The book also explores the layers of limitations and conditions imposed on the exercise of private autonomy that generate legal tensions and conflicting forces. In addition to plotting a systematic approach to the question, the book introduces a new framework for better understanding the correlation between the free movement and competition law regimes and the fundamental economic rights protected in the Charter.
