(i) Suggest an enquiry question or hypothesis that the students might have proposed for their investigation.

(10)

How ~~are~~ effective is coastal management in protecting the coastline from erosion?

(ii) Suggest two problems that the students' choice of locations may have caused for their collection.

(10)

It can also see features that beach erosion strips to that you can also see the profile which has been made and what it is like.

This answer uses the material at the top of the page and presents it as a legitimate question, 3 marks.

Always use the resource.

There is obviously great familiarity with OS maps and several points are made, although some of them especially clearly. As with many candidates, the distinction between site and location is not made clear in their
