General Motors:

General Motors Michael W. R. Davis,1999 The General Motors Corporation was established in 1908 by William C Durant who combined the Buick Oldsmobile and Oakland companies and later Cadillac to form GM From the 1920s onwards GM grew from a firm that accounted for about 10% of new car sales in the U S to become the largest producer of cars and trucks in the world The peak of the company s power and market dominance came in the 1960s which proved to be the decade of change for the U S auto industry With the introduction of federal safety regulations and control tailpipe emissions GM s position as the world s largest industrial corporation changed Its marketing strategy was undone by competitive challenges and the business was never to be the same again General Motors A Photographic History explores the growth of the company in a series of over 200 black and white images From the first assembly line to post Second World War recovery images from the world auto shows and the consequent re organization of GM take the reader on an intriguing visual tour of a tremendously important era in the industrialization of America *The Turning Wheel - The story of General Motors through twenty-five years 1908-1933* Arthur Pound,2013-12-09 GENERAL MOTORS in 1933 reached its twenty fifth milestone Since the founding of General Motors Company of New Jersey in 1908 the growth of the organization has contributed a unique chapter to American industrial history From beginnings so small that its birth escaped notice in financial centers General Motors has worked its way steadily forward to a place where its leadership in many of the most exacting branches of production and distribution is taken for granted and where it meets the public of many lands with a wide variety of merchandise and services Scientific research close attention to dealer and consumer needs and constructive public policies are among the factors accounting for General Motors present strength My acquaintance with General Motors began at its birth in 1908 and as a somewhat impartial observer of social trends I have watched its progress with keen interest ever since ARTHUR POUND 1934 **A Story of General Motors** General Motors Corporation,1942 **General Motors Corporation v Department of Treasury, 466 Mich 231 (2002)** ,2002 116984 **Annual Report** General Motors Corporation,1929 **Emich Motors Corporation V. General Motors and Its People General Motors Corporation,1949 *General Motors: Life Inside the Factory* Richard Thomas Gall,2011-01-04 This book portrays life inside a General Motors factory in the 1970s Have you ever wondered why or how the lazy hourly workers came to be that way This myth is debunked throughout the book Anyone who has ever worked hourly for General Motors the big three or any large manufacturing company will enjoy the experiences provided in this book They will find themselves reminiscing in the past about their own work experiences Anyone who has had a close relative that worked in a factory will want to read this book to get a feel of what their loved ones went through while earning a living The book comes to the stunning conclusion that General Motors top executives wasted a tremendous amount of human resources over the years They looked down upon the factory workers and treated them as if they were disposable employees They never attempted to tap into the vast and almost incalculable amount of brainpower available because they simply dismissed their classification hourly worker as useless They treated them as if they were the source of all of their problems They never even considered that with four hundred thousand hourly employees they might have had the resources right in front of them to help in solving the vast and complex problems that exist in the every day world of work In todays competitive manufacturing environment Lean Manufacturing has stepped into the forefront for improvement One of the two pillars of Lean manufacturing is respect for the worker If youre an executive leader manager or a student of lean youll want to read this book to see how not to do it One theory of management says that if you dont like what you see around you go look in a mirror first because your workforce is a reflection of your thinking and actions *Putting Progress Through Its Paces* General Motors Corporation,1939 Annual Report of General Motors Corporation General Motors Corporation,1977
