use during the consultation process Containing over 1000 conditions the unique underlying structure of the book allows the GP to see immediately what treatment is recommended and why All recommendations are highly specific giving a firm guide to the GP during the consultation process rather than a list of possibilities that the GP might wish to consider Bullet points for action which give the GP an immediate summary of the issues that must be covered in the consultation Bullet points of the key evidence which justifies those recommendations All chapters thoroughly revised to reflect changes in the evidence and in major guidelines since the last edition NNT values provided when available New editorial team New research and guidelines relating to evidence based medicine included Greater focus on international guidelines and opinion New introductory chapter Principles and Practice of Primary Care taking account of topics relevant to the MRCGP exam Appendices thoroughly revised and updated Many contributors new to this edition New chapters on Ethics Diabetes and Long term conditions Extensively revised combined chapter on palliative care and end of life issues Now with accompanying free e book on Expert Consult for the first time Now in full colour A Textbook of General Practice Patrick White,Ann Wylie,2004-04-30 Aimed at medical students and junior doctors A Textbook of General Practice 2e incorporates the essential information that a student needs to know and understand about general practice and being a general practitioner The learning style of the book is based on experiential and reflective principles in keeping with modern educative theory and prac

General Practice John Murtagh,1994 Textbook for students recent graduates and general medical practitioners The focus is on the basics of medical principles and management It details the diagnostic and therapeutic procedures and clinical skills required in general practice Chapters deal with the primary health care of specific groups such as children and adolescents women and men sexually related problems problems of the skin and accident and emergency medicine Includes index Author is professor of general practice at Monash University **Training for General Practice** Council for Postgraduate Medical Education in England and Wales. Advisory Committee on General Practice,1975 **Training for General Practice** Great Britain. Joint Committee on Postgraduate Training for General Practice,1982 **Training for General Practice** Joint Committee on Postgraduate Training for General Practice,1992 **A Celebration of General Practice** Mayur K. Lakhani,2003 This collection of essays on general practice written by a variety of eminent contributors working in primary care considers the influence and leadership of GPs and general practice in the wider community in order to improve the understanding of general practice The Art of General Practice David Bartlett,2018-04-11 The Art of General Practice is a short text written by an experienced GP and GP trainer It is a book which will help focus the mind of the reader GPs of all descriptions young GPs returners to general practice and even jaded GPs on what it means to be a GP Too often general practice focuses on guidelines ever changing targets incentives or the academic side of medicine and the art and craft of being a GP is forgotten The book aims to redress the balance it helps the reader refocus on the emotional intelligence needed to be a great GP The book consists of a number of short chapters so the busy GP can dip in and out of it as time allows

each chapter helps the reader re centre on the core skills and techniques needed to be a great GP and the benefits these skills will bring to both GPs and patients alike. There is almost no medicine in this book; it is a book of life experiences, anecdotes and suggestions all aimed to help you survive the increasing pressures of general practice and make your life as a GP more interesting and less stressful.

General Practice Kerry N. Phelps, Craig Hassed, 2011. The aim of the book is to provide a comprehensive General Practice text book which takes a contemporary integrative approach to diagnosis, investigation and management of health issues and disease states encountered in the general practice environment. The book will cover the philosophy underpinning general practice in the 21st Century and deal with primary and secondary prevention as well as acute and chronic disease management.

General Practice: The Integrative Approach will inform doctors as fully as possible about potential treatment and prevention options as well as potential pitfalls according to the growing evidence base in this area. The book is directed at best practice rather than alternative practice. The first section of the textbook lays the foundations and principles of Integrative Medicine and the second section examines important medical conditions in a systems based approach. Each chapter begins by detailing the allopathic medical and consulting knowledge required of a standard GP text, discussing physiology and pharmacological management plans of systems based conditions. The chapter then leads into an evidence based discussion of the therapeutic options available for the treatment of associated factors, essentially providing practitioners with the knowledge required to adapt their approach to meet the needs of the individual patient.

A national panel of experts with experience in Chinese medicine, herbal medicine, nutritional medicine, naturopathy and exercise therapy have contributed to their various fields of expertise to incorporate management plans that utilise a variety of therapeutic modalities to achieve the best clinical outcome.

General Practice: The Integrative Approach incorporates evidence based and safe therapies including conventional medical care, lifestyle interventions and complementary therapies. It is directed at best practice rather than alternative practice, focuses on prevention and health promotion, and has a symptomatic layout matching the approach of contemporary medical curriculum. Each therapeutic modality and therapeutics contributor is coded with an icon for easy modality reference.

A unique chapter covering medico legal issues, a ready reference herb drug interaction chart, expert authors include Dr Kerry N. Phelps, well known Australian medical practitioner and President of the Australasian Integrative Medicine Association (AIMA).
