Macroeconomics 6th Edition By Olivier Blanchard And David H Johnson:

Macroeconomics without the Errors of Keynes James C. W. Ahikpor, 2019-06-04 Modern macroeconomics is in a stalemate with seven schools of thought attempting to explain the workings of a monetary economy and to derive policies that promote economic growth with price level stability This book pinpoints as the source of this confusion errors made by Keynes in his reading of classical macroeconomics in particular the classical Quantity Theory and the meaning of saving It argues that if these misunderstandings are resolved it will lead to economic policies consistent with promoting the employment and economic growth that Keynes was seeking The book will be crucial reading for all scholars with an interest in the foundations of Keynes's theories and anyone seeking to understand current debates regarding macroeconomic policy making

Macroeconomic Analysis in the Classical Tradition James C W Ahikpor, 2021-03-22 Macroeconomic Analysis in the Classical Tradition explains how the influence of Keynes's macroeconomics including his changed definitions of some key macroeconomic concepts has impeded many analysts' ability to readily resolve disputes in modern macroeconomics Expanding on his earlier work *Macroeconomics without the Errors of Keynes* 2019 the author delves into more aspects of macroeconomic theory and argues for a revision of Keynes's contribution to the field Attention is given to theories and concepts such as Say's Law the quantity theory of money the liquidity trap the permanent income hypothesis 100% money and the Phillips curve analysis The chapters work to build a careful critique of Keynes's economics and make the case that the classical macroeconomics of Smith Say Ricardo Mill and others could help resolve present day policy disagreements and redefine macroeconomic priorities This book provides essential reading for advanced students and scholars with an interest in the foundations of Keynes's theories and current debates within macroeconomic policy
