Mental Toughness, Psychology 101 Daniel Anderson, 2019-05-31 Develop and Unbeatable Mindset through Self Discipline and Willpower Boost Confidence and Learn how to Influence Anyone Through the Art of Persuasion Some days it can feel like the world and even your own brain are against you It can feel like it s impossible to make sense of what is going on in the world or to gain the confidence you need to get where you want to be in life The truth is with these looming concerns and mental blocks it can be impossible to achieve what you want Stop letting it be impossible with these tools The solutions to these problems are to understand psychology and to use it to strengthen your mind and gain mental toughness There are specific reasons for the perceptions we have of reality and the way it all works understand those reasons and you can do anything you decide to do Think of life as a game games are particularly hard to play if you don t understand the rules aren t they If you know the rules understand the barriers make and stick to goals then the game becomes more fun and easier to play When the people around you in life are succeeding and prospering it s nearly impossible not to look at your own life and ask yourself why your achievements aren t tantamount to theirs If getting where you want to be in life has been a struggle for you take a look at the principles of psychology and evaluate your mental toughness How hard is it for you to get back up and keep moving after a considerable setback How hard is it for you to keep yourself motivated in spite of reasons to slacken your efforts How hard is it for you to keep sight of your goals when barriers keep popping up in your path If the answer to any of these ranges anywhere from moderate to severe difficulty you need this bundle This book bundle will help you to Use the principles of psychology to live the life you want to live Get the tools you need to keep yourself motivated to do the things you want to do Increase mental fortitude so you can take finally take the lead in life Get back into the swing of things after setbacks Keep your goals at the forefront and work toward them no matter what Make your own opportunities instead of waiting for them to come to you And so much more There is a science to living the life you want to live and to increasing your mental toughness and resilience Once you can understand that science and use these techniques to your advantage you will be able to get through even the toughest days with more resolve for what comes next How Do You Get Started Purchase now and begin reading this book bundle that will help you to understand yourself Stop dealing with failure and anxiety get started today Click Buy Now to get started

MindRight Kevin Stacey, 2019-07 It s estimated that we think around 50 000 thoughts a day That s a lot of noise Realistically the noise is never going to stop Much of what we think about is negative counterproductive or not based on reality Neuroscience teaches us that our brains have a negativity bias Internal fake news is the worst kind of since it s mostly personal negative and repetitive Every thought that we entertain with emotion creates a physical reaction and impacts our outputs and performance The problem isn t that we have negative thoughts the problem is that we believe and pay attention to them The prerequisite for success and a peaceful life is getting your mind right We forget that happiness does not come from a success success comes from happiness When your mind is right you re

thinking the right way and doing the right things to create success It s also about what you expect or envision for yourself This is vital since we only allow ourselves the degree of success that s consistent with our self concept and what we believe we deserve This book teaches you how to be more mindful mentally tough and resilient It offers a primer in psychological performance improvement training how to begin re wiring your brain to get it in tune with what you want not what you fear How you navigate your noise is one of the most important factors in your overall experience in life and statements about you has a human being Learn how to change your relationship to your thoughts as sometimes we need to ignore the noise At times we need to turn up the volume on the noise to get clear on the outrageous blanket statements and automatic negative thoughts our brains create At times we need to fight the inner critic by doing cognitive restructuring editing and re framing what you tell yourself This helps you counter cognitive distortions entrenched negativity and use your mind to train your brain At times we need to take a break and let the noise be at times we need to quiet the noise to get our brain still
