Uma das políticas públicas mais bem sucedida em continuidade e abrangência o Programa Nacional do Livro e do Material Didático PNLD desde sua criação em 1985 permanece ativo e em constante aprimoramento. Em 2018 a Educação Física foi inserida como um dos componentes curriculares a serem atendidos pelo programa. Consideramos que a existência de obras didáticas pode servir de apoio aos professores de EF embora não seja algo novo. Estes materiais surgem nas escolas e podem ser utilizados de diferentes maneiras. Neste livro buscamos responder às seguintes perguntas: Quais características das obras didáticas para a Educação Física presentes no PNLD atendem aos critérios expressos no Edital de convocação para o quadriênio 2019-2022? Quais concepções de Educação Física fundamentam essas obras? Para encontrar as respostas para estas perguntas realizo este estudo com o objetivo de analisar as obras de Educação Física disponibilizadas identificando suas características e concepções defendidas.
