The Role of Scientific Expertise in Minimum Wage Policy Making Fabian Klein, 2021-03-01 This book examines the role of scientific expertise in minimum wage policy making in Germany the United Kingdom and the United States It finds that scientific research is an important part of the public discourse on minimum wages in all three countries Newspapers frequently cite scholars and research institutions providing their readers with a good sense of how scientific research evaluates the effects of minimum wages How often this happens

depends on the context Most importantly newspapers from the United States cite researchers more frequently than newspapers from the two European countries The book also shows that scientific research influences the policy preferences of political actors such as trade unions political parties and government agencies The influence is based on policy oriented learning It is strong in Germany and the United Kingdom and weaker in the United States In both cases cross country differences are found to be related to different styles of using scientific expertise in the three countries *Making Minimum Wage* Helen J. Knowles,2021-08-05 The US Supreme Court s 1937 decision in *West Coast Hotel v Parrish* upholding the constitutionality of Washington State s minimum wage law for women had monumental consequences for all American workers It also marked a major shift in the Court s response to President Franklin D Roosevelt s New Deal agenda In *Making Minimum Wage* Helen J Knowles tells the human story behind this historic case *West Coast Hotel v Parrish* pitted a Washington State hotel against a chambermaid Elsie Parrish who claimed that she was owed the state s minimum wage The hotel argued that under the concept of freedom of contract the US Constitution allowed it to pay its female workers whatever low wages they were willing to accept Knowles unpacks the legal complexities of the case while telling the litigants stories Drawing on archival and private materials including the unpublished memoir of Elsie s lawyer C B Conner Knowles exposes the profound courage and resolve of the former chambermaid Her book reveals why Elsie who in her mid thirties was already a grandmother was fired from her job at the Cascadian Hotel in Wenatchee and why she undertook the outsized risk of suing the hotel for back wages Minimum wage laws are not an academic question or even a legal one Elinore Morehouse Herrick the New York director of the National Labor Relations Board said in 1936 Rather they are a human problem A pioneering analysis that illuminates the life stories behind *West Coast Hotel v Parrish* as well as the case s impact on local state and national levels *Making Minimum Wage* vividly demonstrates the fundamental truth of Morehouse Herrick s statement
