Restoration England 1660-1689 William Lewis Sachse,1971-07-02 **Between the Devil and the Deep Blue Sea** Marcus Rediker,1989-02-24 This brilliant account of the maritime world of the eighteenth century reconstructs in detail the social and cultural milieu of Anglo American seafaring and piracy Copyright Libri GmbH All rights reserved **Unsettled** Patricia Fumerton,2006-05 Migrants made up a growing class of workers in late sixteenth and seventeenth century England In fact by 1650 half of England s rural population consisted of homeless and itinerant laborers Unsettled is an ambitious attempt to reconstruct the everyday lives of these dispossessed people Patricia Fumerton offers an expansive portrait of unsettledness in early modern England that includes the homeless and housed alike Fumerton begins by building on recent studies of vagrancy poverty and servants placing all in the light of a new domestic economy of mobility She then looks at representations of the vagrant in a variety of pamphlets and literature of the period Since seamen were a particularly large and prominent class of mobile wage laborers in the seventeenth century Fumerton turns to seamen generally and to an individual poor seaman as a case study of the unsettled subject Edward Barlow b 1642 provides a rare opportunity to see how the laboring poor fashioned themselves for he authored a journal of over 225 000 words and 147 pages of drawings Barlow s journal studied extensively here for the first time vividly charts what he himself termed his unsettled mind and the perpetual anxieties of England s working and wayfaring poor Ultimately Fumerton explores representations of seamen as unsettled in the broadside ballads of Barlow s time **Shipwrecks and the Bounty of the Sea** David Cressy,2022 Shipwrecks and the Bounty of the Sea is a work of social history examining community relationships law and seafaring over the long early modern period It explores the politics of the coastline the economy of scavenging and the law of wreck of the

sea from the beginning of the reign of Elizabeth I to the end of the reign of George II England's coastlines were heavily trafficked by naval and commercial shipping but an unfortunate percentage was cast away or lost Shipwrecks were disasters for merchants and mariners but opportunities for shore dwellers As the proverb said it was an ill wind that blew nobody any good Lords of manors local officials officers of the Admiralty and coastal commoners competed for maritime cargoes and the windfall of wreckage which they regarded as providential godsend or entitlements by right A varied haul of commodities wines furnishings and bullion came ashore much of it claimed by the crown The people engaged in salvaging these wrecks came to be called wreckers and gained a reputation as violent and barbarous plunderers Close attention to statements of witnesses and reports of survivors shows this image to be largely undeserved Dramatic evidence from previously unexplored manuscript sources reveals coastal communities in action collaborating as well as competing as they harvested the bounty of the sea

Tudor and Stuart Seafarers James Davey, 2018-08-09 Tudor and Stuart Seafarers tells the compelling story of how a small island positioned on the edge of Europe transformed itself into the world's leading maritime power In 1485 England was an inward looking country its priorities largely domestic and European Over the subsequent two centuries however this country was transformed as the people of the British Isles turned to the sea in search of adventure wealth and rule Explorers voyaged into unknown regions of the world while merchants following in their wake established lucrative trade routes with the furthest reaches of the globe At home people across Britain increasingly engaged with the sea whether through their own lived experiences or through songs prose and countless other forms of material culture This exquisitely illustrated book delves into a tale of exploration encounter adventure power wealth and conflict Topics include the exploration of the Americas the growth of worldwide trade piracy and privateering and the defeat of the Spanish Armada brought to life through a variety of personalities from the well known Elizabeth I Sir Francis Drake and Samuel Pepys to the ordinary sailors dockyard workers and their wives and families whose lives were so dramatically shaped by the sea

The Navy in the War of William III 1689-1697 John Ehrman, 2012-02-02 First published in 1953 this volume traces the role played by the English navy during the years 1689-97 during which time England became the dominant sea power of Europe This volume will appeal to anyone interested in the naval history of England at the end of the seventeenth century

She Captains Joan Druett, 2001-05-29 With her pistols loaded she went aboard And by her side hung a glittering sword In her belt two daggers well armed for war Was this female smuggler Was this female smuggler who never feared a scar If a hen frigate was any ship carrying a captain's wife then a she captain is a bold woman distinguished for courageous enterprise in the history of the sea She captains who infamously possessed the bodies of women and the souls of men thrilled and terrorized their shipmates doing deeds beyond the valor of women Some were bold and crafty pirates with broadsword in hand Others were sirens too like the Valkyria Princess Alfhild whom the mariners made rover captain for her beauty Like their male counterparts these astonishing women were drawn to the ocean's beauty and its danger In her inimitable yarn

spinning style award winning historian Joan Druett tells us what life was like for the women who dared to captain ships of their own don pirates garb and perform heroic and hellacious deeds on the high seas We meet Irish raider Grace Grania O Malley sometimes called the bald Grania because she cut her hair short like a boy s who commanded three galleys and two hundred fighting men Female pirates Anne Bonny and Mary Read were wanted by the law Armed to the teeth with cutlasses and pistols they inspired awe and admiration as they swaggered about in fancy hats and expensive finery killing many a man who cowered cravenly before them Lovelorn Susan Put on a jolly sailor s dress And daubed her hands with tar To cross the raging sea On board a man of war to be near her William Others disguised themselves for economic reasons In 1835 Ann Jane Thornton signed on as a ship s steward to earn the fair wage of nine dollars per month When it was discovered that she was a woman the captain testified that Jane was a capital sailor but the crew had been suspicious of her from the start because she would not drink her grog like a regular seaman In 1838 twenty two year old Grace Darling led the charge to rescue nine castaways from the wreck of the Forfarshire the Titanic of its day I ll save the crew she cried her courageous pledge immortalized in a torrent of books songs and poems Though she captains had been sailing for hundreds of years by the turn of the twentieth century Scotswoman Betsey Miller made headlines by weathering storms of the deep when many commanders of the other sex have been driven to pieces on the rocks From the warrior queens of the sixth century B C to the women shipowners influential in opening the Northwest Passage Druett has assembled a real life cast of characters whose boldness and bravado will capture popular imagination Following the arc of maritime history from the female perspective She Captains intrepid crew sails forth into a sea of adventure *A Sea of Misadventures* Amy Mitchell-Cook,2013-11-30 *A Sea of Misadventures* examines more than one hundred documented shipwreck narratives from the seventeenth to the nineteenth century as a means to understanding gender status and religion in the history of early America Though it includes all the drama and intrigue afforded by maritime disasters the book s significance lies in its investigation of how the trauma of shipwreck affected American values and behavior Through stories of death and devastation Amy Mitchell Cook examines issues of hierarchy race and gender when the sphere of social action is shrunk to the dimensions of a lifeboat or deserted shore Rather than debate the veracity of shipwreck tales Mitchell Cook provides a cultural and social analysis that places maritime disasters within the broader context of North American society She answers questions that include who survived and why how did gender or status affect survival rates and how did survivors relate their stories to interested but unaffected audiences Mitchell Cook observes that in creating a sense of order out of chaotic events the narratives reassured audiences that anarchy did not rule the waves even when desperate survivors resorted to cannibalism Some of the accounts she studies are legal documents required by insurance companies while others have been a form of prescriptive literature guides that taught survivors how to act and be remembered with honor In essence shipwreck revealed some of the traits that defined what it meant to be Anglo American In an elaboration of some of the themes Mitchell Cook compares American narratives

with Portuguese narratives to reveal the power of divergent cultural norms to shape so basic an event as a shipwreck

British Slaves and Barbary Corsairs, 1580-1750 Bernard Capp, 2022 The first comprehensive study of the thousands of Britons captured and enslaved in North Africa in the early modern period charting the course of victims lives from capture to liberation death or escape The study places the British story within the context of Mediterranean slavery which saw Moors and Christians as both captors and captives

Turks, Moors, and Englishmen in the Age of Discovery Nabil Matar, 2000-10-25 During the early modern period hundreds of Turks and Moors traded in English and Welsh ports dazzled English society with exotic cuisine and Arabian horses and worked small jobs in London while the Barbary Corsairs raided coastal towns and if captured lingered in Plymouth jails or stood trial in Southampton courtrooms In turn Britons fought in Muslim armies traded and settled in Moroccan or Tunisian harbor towns joined the international community of pirates in Mediterranean and Atlantic outposts served in Algerian households and ships and endured captivity from Salee to Alexandria and from Fez to Mocha In *Turks Moors and Englishmen* Nabil Matar vividly presents new data about Anglo Islamic social and historical interactions Rather than looking exclusively at literary works which tended to present unidimensional stereotypes of Muslims Shakespeare's superstitious Moor or Goffe's raging Turke to name only two Matar delves into hitherto unexamined English prison depositions captives memoirs government documents and Arabic chronicles and histories The result is a significant alternative to the prevailing discourse on Islam which nearly always centers around ethnocentrism and attempts at dominance over the non Western world and an astonishing revelation about the realities of exchange and familiarity between England and Muslim society in the Elizabethan and early Stuart periods Concurrent with England's engagement and discovery of the Muslims was the discovery of the American Indians In an original analysis Matar shows how Hakluyt and Purchas taught their readers not only about America but about the Muslim dominions too how there were more reasons for Britons to venture eastward than westward and how in the period under study more Englishmen lived in North Africa than in North America Although Matar notes the sharp political and colonial differences between the English encounter with the Muslims and their encounter with the Indians he shows how Elizabethan and Stuart writers articulated Muslim in terms of Indian and Indian in terms of Muslim By superimposing the sexual constructions of the Indians onto the Muslims and by applying to them the ideology of holy war which had legitimated the destruction of the Indians English writers prepared the groundwork for orientalism and for the eighteenth and nineteenth century conquest of Mediterranean Islam Matar's detailed research provides a new direction in the study of England's geographic imagination It also illuminates the subtleties and interchangeability of stereotype racism and demonization that must be taken into account in any responsible depiction of English history

The Social History of English Seamen, 1485-1649 Cheryl A. Fury, 2012 Investigates the lives of common sailors engaged in commerce exploration privateering and piracy and naval actions during Tudor and Stuart periods

Encountering Islam Paul Auchterlonie, 2012-03-24 Long before European empires came to

dominate the Middle East Britain was brought face to face with Islam through the activities of the Barbary corsairs For three centuries after 1500 Muslim ships based in North African ports terrorized European shipping capturing thousands of vessels and enslaving hundreds of thousands of Christians Encountering Islam is the fascinating story of one Englishman s experience of life within a Muslim society as both Christian slave and Muslim soldier Born in Exeter around 1662 Joseph Pitts was captured by Algerian pirates on his first voyage in 1678 Sold as a slave in Algiers he underwent forced conversion to Islam Sold again he accompanied his kindly third master on pilgrimage to Mecca so becoming the first Englishman known to have visited the Muslim Holy Places Granted his freedom Pitts became a soldier going on campaign against the Moroccans and Spanish before venturing on a daring escape while serving with the Algiers fleet Crossing much of Italy and Germany on foot he finally reached Exeter seventeen years after he had left Joseph Pitts s *A Faithful Account of the Religion and Manners of the Mahometans* first published in 1704 is a unique combination of captivity narrative travel account and description of Islam It describes his time in Algiers his life as a slave his conversion his pilgrimage to Mecca the first such detailed description in English Muslim ritual and practice and his audacious escape A Christian for most of his life Pitts also had the advantage of living as a Muslim within a Muslim society Nowhere in the literature of the period is there a more intimate and poignant account of identity conflict Encountering Islam contains a faithful rendering of the definitive 1731 edition of Pitts s book together with critical historical religious and linguistic notes The introduction tells what is known of Pitts s life and places his work against its historical background and in the context of current scholarship on captivity narratives and Anglo Muslim relations of the period Paul Auchterlonie an Arabist worked for forty years as a librarian specializing in Middle Eastern and Islamic studies and from 1981 to 2011 was librarian in charge of the Middle East collections at the University of Exeter He is the author and editor of numerous works on Middle Eastern bibliography and library science and has recently published articles on historical and cultural relations between Britain and the Middle East He is currently an Honorary Research Fellow at the Institute of Arab and Islamic Studies at the University of Exeter
