Hot X: Algebra Exposed! Danica McKellar, 2011-06-28 Actress and New York Times bestselling author Danica McKellar tackles the most feared of all math classes algebra in this helpful algebra workbook that's perfect for high school math students. The word alone has been known to strike fear in the hearts of even the best students but help is here. With her two earlier books *Math Doesn't Suck* and *Kiss My Math*, actress and math genius Danica McKellar shattered the math nerd stereotype and empowered girls to conquer middle school math and pre algebra. Sizzling with McKellar's trademark sass and style, *Hot X: Algebra Exposed* shows high schoolers how to master algebra topics like square roots, polynomials, quadratic equations, word problems, and more. In addition to fun extras like personality quizzes, reader polls, and boy crazy confessionals, *Hot X* includes time-saving tips and tricks, sample problems with detailed solutions, relatable real-world examples.

Models David Freedman, 2009-04-27 This lively and engaging book explains the things you have to know in order to read empirical papers in the social and health sciences, as well as the techniques you need to build statistical models of your own. The discussion in the book is organized around published studies, as are many of the exercises. Relevant journal articles are reprinted at the back of the book. Freedman makes a thorough appraisal of the statistical methods in these papers and in a variety of other examples. He illustrates the principles of modelling and the pitfalls. The discussion shows you how to think about the critical issues, including the connection or lack of it between the statistical models and the real phenomena. The
