Donovan, 2023-07-03 The question that animates volume 16th in the Service Learning in the Disciplines Series is Why connect service learning to history courses The contributors answer that question in different ways and illustrate and highlight a diversity of historical approaches and interpretations All agree however that they do their jobs better as teachers and in some cases as researchers by engaging their students in service learning An interesting read with a compelling case for the importance of history and how service learning can improve the historian's craft **Homesteading the Plains** Richard Edwards, Jacob K. Friefeld, Rebecca S. Wingo, 2017 Homesteading the Plains offers a bold new look at the history of homesteading overturning what for decades has been the orthodox scholarly view The authors begin by noting the striking disparity between the public's perception of homesteading as a cherished part of our national narrative and most scholars harshly negative and dismissive treatment Homesteading the Plains reexamines old data and draws from newly available digitized records to reassess the current interpretation's four principal tenets homesteading was a minor factor in farm formation with most Western farmers

purchasing their land most homesteaders failed to prove up their claims the homesteading process was rife with corruption and fraud and homesteading caused Indian land dispossession Using data instead of anecdotes and focusing mainly on the nineteenth century Homesteading the Plains demonstrates that the first three tenets are wrong and the fourth only partially true In short the public's perception of homesteading is perhaps more accurate than the one scholars have constructed Homesteading the Plains provides the basis for an understanding of homesteading that is startlingly different from current scholarly orthodoxy

History Can Bite Denise Bentrovato, Karina V. Korostelina, Martina Schulze, 2016-10-10 The volume provides critical insights into approaches adopted by curricula textbooks and teachers around the world when teaching about the past in the wake of civil war and mass violence discerning some of the key challenges and opportunities involved in such endeavors The contributors discuss ways in which history teaching has acted as a political tool that has at times been guilty of exacerbating inter group conflicts It also highlights history teaching as an important component of reconciliation attempts showcasing examples of curricular reform and textbook revision after conflict and discussing how the contestations and difficulties surrounding such processes were addressed in different post conflict societies Oral History, Community, and Work in the American West Jessie L. Embry, 2013-10-03 The essays in this volume are case studies of the importance of oral history in understanding community and work in the American West Provided by publisher Collections Vol 13 N2 Juilee Decker, Collections, 2017-07-06 This issue of the journal is themed with a focus on Storytelling Oral Histories Archives and Museums Articles address methods case studies and theoretical approaches taken by museum and archives professionals including librarians archivists curators technologists researchers scholars and students **I Freed Myself** David Williams, 2014-04-21 For a century and a half Abraham Lincoln's signing of the Emancipation Proclamation has been the dominant narrative of African American freedom in the Civil War era However David Williams suggests that this portrayal marginalizes the role that African American slaves played in freeing themselves At the Civil War's outset Lincoln made clear his intent was to save the Union rather than free slaves despite his personal distaste for slavery he claimed no authority to interfere with the institution By the second year of the war though when the Union army was in desperate need of black

support former slaves who escaped to Union lines struck a bargain they would fight for the Union only if they were granted their freedom Williams importantly demonstrates that freedom was not simply the absence of slavery but rather a dynamic process enacted by self emancipated African American refugees which compelled Lincoln to modify his war aims and place black freedom at the center of his wartime policies
