American Exceptionalism A Double Edged Sword

Augustus B. Cochran

American Exceptionalism A Double Edged Sword:

American Exceptionalism Seymour Martin Lipset, 1996 Is America unique One of our major political analysts explores the deeply held but often unarticulated beliefs that shape the American creed A magisterial attempt to distill a lifetime of learning about America into a persuasive brief by the dean of American political sociologists Carlin Romano Boston Globe

American Exceptionalism Seymour Martin Lipset, 1996 In this timely new study one of our major political analysts Seymour Martin Lipset explores the deeply held but often inarticulated beliefs that shape America's society and thought Is this country in the throes of a revolution from the right Is it in decline morally Is Japan about to replace us as the leading economic power Why does the United States have the highest crime rate the most persons per capita in prison Why is our electoral turnout so low Why are we the most open socially mobile society and the most unequally developed nation in income distribution Why is America the most religious country in Christendom What explains our persistently high rate of opposition to wars and conversely our propensity for flag waving and expressions of patriotic enthusiasm As the 1996 election year begins Professor Lipset examines the remarkable persistence of an American creed a double edged sword that provides both good and bad offering fresh insights into our culture and its future *American Social and Political Thought* Andreas Hess, 2003-04 This concise comprehensive primer on modern American social and political thought is the ideal introduction to the rich intellectual tradition of the United States Andreas Hess helps the reader to understand of American culture and politics through careful exploration of key and theorists In the first half of the book he focuses on the core traditions of American social and political thought American exceptionalism Calvinist Protestantism republicanism liberalism and 20th century pragmatism The second half of the book applies these traditions to a broad range of 20th century conditions and issues power and democracy justice and injustice multiculturalism and pluralism civil society social theory and the role of the intellectual The works of some of the most influential figures in the field such as De Tocqueville Lipset Arendt Hartz Pocock Dewey Moore Rawls Walzer Rorty and Alexander are drawn upon to illustrate the theories and issues being discussed Accessibly written and jargon free this treatment will be useful for students and scholars alike [American Exceptionalism Reconsidered](#) David P. Forsythe, Patrice C. McMahon, 2016-11-25 Is the US really exceptional in terms of its willingness to take universal human rights seriously According to the rhetoric of American political leaders the United States has a unique and lasting commitment to human rights principles and to a liberal world order centered on rule of law and human dignity But when push comes to shove most recently in Libya and Syria the United States failed to stop atrocities and dithered as disorder spread in both places This book takes on the myths surrounding US foreign policy and the future of world order Weighing impulses toward parochial nationalism against the ideal of cosmopolitan internationalism the authors posit that what may be emerging is a new brand of American globalism or a foreign policy that gives primacy to national self interest but does so with considerable interest in and genuine attention to universal human rights and a willingness to suffer

and pay for those outside its borders at least on occasion The occasions of exception such as Libya and Syria provide case studies for critical analysis and allow the authors to look to emerging dominant powers especially China for indicators of new challenges to the commitment to universal human rights and humanitarian affairs in the context of the ongoing clash between liberalism and realism The book is guided by four central questions 1 What is the relationship between cosmopolitan international standards and narrow national self interest in US policy on human rights and humanitarian affairs 2 What is the role of American public opinion and does it play any significant role in shaping US policy in this dialectical clash 3 Beyond public opinion what other factors account for the shifting interplay of liberal and realist inclinations in Washington policy making 4 In the 21st century and as global power shifts what are the current views and policies of other countries when it comes to the application of human rights and humanitarian affairs *American Exceptionalism* Seymour Martin Lipset, 1997

American Society Today Edward Ashbee, 2002 Table of contents **US Foreign Policy** Michael Cox, Doug

Stokes, 2012-02-09 This textbook provides a comprehensive introduction to US foreign policy Bringing together a number of the world's leading experts the text deals with the rise of America US foreign policy during and after the Cold War and the complex issues facing the US since September 11th **The American Challenge** Dr David Mosler, Professor R

Catley, 2013-03-28 The rise of the US as a hegemonic power during the twentieth century first pursuing a liberal project of globalization under Clinton and then moving towards greater unilateralism after the election of George W Bush is comprehensively described in this much needed study Following the invasion of Iraq the Bush administration became increasingly unpopular at home and abroad America's power to impose its will declined and rivals were able to take advantage of its weakened state and pursue their own agendas with considerable success This indispensable book looks at whether policy failure in Iraq and declining US soft and hard power mark the beginning of the end of US hegemony or whether the resilience of America's military and economic foundations will once again prove observers wrong **Free**

World Timothy Garton Ash, 2005-03-31 At the start of the 21st century the world plunged into crisis What began as an attack on the West by Osama bin Laden soon became a dramatic confrontation between Europe and America Britain has found itself painfully split because it stands with one foot across the Atlantic and the other across the Channel The English in particular are hopelessly divided between a Right that argues our place is with America not Europe and a Left that claims the opposite This is today's English civil war Both sides tell us we must choose In this powerful new work Timothy Garton Ash one of our leading political writers explains why we cannot need not and must not choose between Europe and America **The**

Sovereignty Wars Stewart Patrick, 2019-05-21 Protecting sovereignty while advancing American interests in the global age Americans have long been protective of the country's sovereignty beginning when George Washington retired as president with the admonition for his successors to avoid permanent alliances with foreign powers Ever since the nation has faced persistent often heated debates about how to maintain that sovereignty and whether it is endangered when the United States

enters international organizations treaties and alliances about which Washington warned As the recent election made clear sovereignty is also one of the most frequently invoked polemical and misunderstood concepts in politics particularly American politics The concept wields symbolic power implying something sacred and inalienable the right of the people to control their fate without subordination to outside authorities Given its emotional pull however the concept is easily hijacked by political opportunists By playing the sovereignty card they can curtail more reasoned debates over the merits of proposed international commitments by portraying supporters of global treaties or organizations as enemies of motherhood and apple pie Such polemics distract Americans from what is really at stake in the sovereignty debate namely the ability of the United States to shape its destiny in a global age The United States cannot successfully manage globalization much less insulate itself from cross border threats on its own As global integration deepens and cross border challenges grow the nation s fate is increasingly tied to that of other countries whose cooperation will be needed to exploit the shared opportunities and mitigate the common risks of interdependence The Sovereignty Wars is intended to help today s policymakers think more clearly about what is actually at stake in the sovereignty debate and to provide some criteria for determining when it is appropriate to make bargains over sovereignty and how to make them

The Anthem Companion to Talcott Parsons A. Javier Treviño,2016-06-19 The Anthem Companion to Talcott Parsons offers the best contemporary work on Talcott Parsons written by the best scholars currently working in this field Original authoritative and wide ranging the critical assessments of this volume will make it ideal for Parsons students and scholars alike Anthem Companions to Sociology offer authoritative and comprehensive assessments of major figures in the development of sociology from the last two centuries Covering the major advancements in sociological thought these companions offer critical evaluations of key figures in the American and European sociological tradition and will provide students and scholars with both an in depth assessment of the makers of sociology and chart their relevance to modern society

Public Administration in Perspective David John Farmer,2015-01-30 Throughout its history public administration has used a number of different perspectives for analyzing the discipline s theory and practice and both mainstream and alternative lenses have produced valuable insights and prescriptions At the same time an individual way of looking at PA can be misleading Alone a solitary lens can miss critical aspects and often gives only part of the picture Public Administration in Perspective has been specifically crafted to give new life to public administration theory and practice by helping readers view the discipline through a variety of perspectives Designed for the capstone course in public administration programs as well as a fresh approach for courses in PA theory and organizational theory this unique book provides a culminating experience bringing together what has been learned in previous MPA courses without simply rehashing old content It offers a comprehensive guide to eleven major approaches to PA and synthesizes them to deepen our understanding of the discipline Each chapter in Part I describes the key features of the selected perspective history content and proponents and discusses the strengths and weaknesses related

to PA theory and practice Part II synthesizes the various perspectives with specific implications for PA management and practice Part III concludes with a complete overview identifying ways in which readers can think more creatively and productively about PA putting the perspectives themselves into perspective Imagined Histories Anthony Molho, Gordon S. Wood, 2018-06-05 This collection of essays by twenty one distinguished American historians reflects on a peculiarly American way of imagining the past At a time when history writing has changed dramatically the authors discuss the birth and evolution of historiography in this country from its origins in the late nineteenth century through its present more cosmopolitan character In the book's first part concerning recent historiography are chapters on exceptionalism gender economic history social theory race and immigration and multiculturalism Authors are Daniel Rodgers Linda Kerber Naomi Lamoreaux Dorothy Ross Thomas Holt and Philip Gleason The three American centuries are discussed in the second part with chapters by Gordon Wood George Fredrickson and James Patterson The third part is a chronological survey of non American histories including that of Western civilization ancient history the middle ages early modern and modern Europe Russia and Asia Contributors are Eugen Weber Richard Saller Gabrielle Spiegel Anthony Molho Philip Benedict Richard Kagan Keith Baker Joseph Zizak Volker Berghahn Charles Maier Martin Malia and Carol Gluck Together these scholars reveal the unique perspective American historians have brought to the past of their own nation as well as that of the world Formerly writing from a conviction that America had a singular destiny American historians have gradually come to share viewpoints of historians in other countries about which they write The result is the virtual disappearance of what was a distinctive American voice That voice is the subject of this book *Muslims in the West After 9/11* Jocelyne Cesari, 2009-12-04 This book is the first systematic attempt to study the situation of European and American Muslims after 9 11 and to present a comprehensive analysis of their religious political and legal situations Since 9 11 and particularly since the Madrid and London bombings of 2004 and 2005 the Muslim presence in Europe and the United States has become a major political concern Many have raised questions regarding potential links between Western Muslims radical Islam and terrorism Whatever the justification of such concerns it is insufficient to address the subject of Muslims in the West from an exclusively counter terrorist perspective Based on empirical studies of Muslims in the US and Western Europe this edited volume posits the situation of Muslim minorities in a broader reflection on the status of liberalism in Western foreign policies It also explores the changes in immigration policies multiculturalism and secularism that have been shaped by the new international context of the war on terror This book will be of great interest to students of Critical Security Studies Islamic Studies Sociology and Political Science in general Jocelyne Cesari is an Associate at Harvard's Center for Middle Eastern Studies and the Center for European Studies teaching at Harvard Divinity School and the Government Department specializing in Islam and the Middle East Reluctant Engagement: U.S. Policy and the International Criminal Court Mark D. Kielsgard, 2010-09-24 Why has the United States taken such a firm stance against the International Criminal Court ICC

and expended such diplomatic goodwill in an attempt to dismantle a tribunal that poses no serious risk to its citizens This book critiques causal ideologies such as American exceptionalism state sovereignty and laissez faire capitalism to show how U S opposition is driven by pervasive political legal historic military and economic conditioning factors It shows how U S attitudes transcend partisan politics and predicts how the U S ICC relationship will be affected by the economic crisis shifting international geopolitical power structures the crisis in the U S military unfolding international human rights law and the politics of change promised by the nascent Obama administration The United States has been at the centre of international criminal justice initiatives from Nuremberg to the more recent ad hoc tribunals for the former Yugoslavia Rwanda Sierra Leone and Lebanon But its position has been lukewarm and sometimes in the darkest days of the Bush administration outright hostile to the International Criminal Court Filling a gap in the literature Dr Mark Kielsgard reviews the history of American policy analysing the factors that have driven it making useful and practical suggestions aimed at greater engagement of the United States with the International Criminal Court Professor William A Schabas

Sport and the Transformation of Modern Europe Alan Tomlinson, Christopher Young, Richard Holt, 2013-06-17 In the modern era sport has been an important agent and symptom of the political cultural and commercial pressures for convergence and globalization In this fascinating inter disciplinary study leading international scholars explore the making of modern sport in Europe illuminating sport and its cultural and economic impacts in the context of the supra state formations and global markets that have re shaped national and trans national cultures in the later twentieth century The book focuses on the emergence and expansion of media markets high performance sport s transformation by and effects upon Cold War dynamics and relations and the implications of the Treaty of Rome for an emerging European identity in sport as in other areas for example the influence of soccer s governing body in Europe UEFA and its club and international competitions It traces the connections between the forces of ideological division economic growth leisure consumption European integration and the development of European sport and examines the role of sport in the changing relationship between Europe and the US Illuminating a key moment in global cultural history this book is important reading for any student or scholar working in international studies modern history or sport

A Ridiculous Man Norman Abjorensen, 2020-11-13 The election of Donald Trump as the 45th president of the United States in 2016 was a pivotal moment not just for America but for the world A celebrity rather than a politician Trump promised to turn politics on its head and he did But was he an aberration or did he represent a continuity of forces already in play Who was he where did he come from and what did he do These are questions future historians will ask as they grapple with the meaning of Trump the implications of his presidency and his place in history

Portraying the Other in International Relations Sybille Reinke de Buitrago, 2012-04-25 Portraying the other in international relations significantly shapes interaction among actors in the international field consequently colouring views of the other and legitimating behaviour toward the other This edited volume presents current analyses by international scholars

on othering processes and self other constructions within international relations attempting to fill a gap in the debate on this fascinating topic and its socio political implications Othering is illustrated in three thematic sections I Othering in interstate and interregional relations II Othering in the policy field of terrorism and counterterrorism and III Possible transformations of othering Contributions discuss othering from diverse angles and with different conceptual approaches illustrating the multiple forms othering can take They show how othering can be studied and its dynamics and consequences critically analysed and more comprehensively understood but also the limits to these attempts Various motivations for engaging in othering are elaborated The images ways of representations and stylistic means that are applied are exposed and their internal logic as well as effects on thinking and behaviour in the international arena examined Furthermore possibilities for modifying othering processes that is how negative self other constructions may be transformed with the goal of enabling the peaceful existence of different groups are presented

Globalization and American Popular Culture

Lane Crothers,2010 A third edition of this book is now available Now in a fully revised and updated edition this concise and insightful book explores the ways American popular products such as movies music television programs fast food sports and even clothing styles have molded and continue to influence modern globalization Lane Crothers offers a thoughtful examination of both the appeal of American products worldwide and the fear and rejection they induce in many people and nations around the world Concluding with a projection of the future impact of American popular culture this book makes a powerful argument for its central role in shaping global politics and economic development

Social Policy and Social Change Jillian Jimenez,2010 A timely examination of social policy through a social constructivist and economic lens Social Policy and Social Change illuminates the root causes of common social problems and how policy has attempted to ameliorate them In so doing the book focuses on how social policies in the United States can be transformed to promote social justice for all groups The book uniquely offers both an historical analysis of social problems and social policies and an economic analysis of how capitalism and the market economy have contributed to social problems and impacted social policies The book goes beyond the U S borders to examine the impact of globalization in the United States and in the Global South It considers the meaning and impact of the election of Barack Obama as President of the United States and explores the policy solutions his administration has proposed to deal with the economic recession of 2008 2009 The book also discusses social workers as agents of social change and advocates of social and economic justice It examines five key realms Poverty in families and the welfare system poverty among the elderly and social security child maltreatment and child welfare policy health and mental health policy and housing policy Social Policy and Social Change is a primary text for social policy social welfare policy courses in MSW programs and possibly some higher level BSW programs It will be supplemented with a comprehensive ancillary program including a test bank instructor s manual and student website
