Outlines of Agricultural Economics Edwin Griswold Nourse, 1917 *Outlines of Agricultural Economics* Edwin Griswold Nourse, 2015-06-16 Excerpt from *Outlines of Agricultural Economics A Class Book of Questions and Problems* This little book appears in fulfilment of the promise made a year ago that there would be a class book to accompany *Agricultural Economics* In fact these questions and exercises should be regarded as an integral part of the earlier volume for all purposes of teaching and study They should be bound together except for the undue size which would result and the possibility that some instructors might desire to use this class book in connection with other materials For this latter reason the writer has aimed to make the questions sufficiently general in character to be of value to classes using other textbooks than his own and especially to instructors or classes in marketing rural credits and similar special topics While the questions bear in the main upon the particular matter presented in the companion volume specific references have been avoided in nearly all cases The writer disclaims any pretense of offering a bibliography of agricultural economics The lists of additional references appended to the various chapters are merely what their name implies references added to those already suggested in the footnotes of the various selections Some of these represent valuable material which has appeared since the publication of the earlier volume others are works which for one reason or another were not used in the compilation of the source book but which seem to the writer to be of value for further reading on special topics or in the preparation of term papers Likewise the lists of special topics do not aim at completeness but are intended by a few concrete suggestions to stimulate the student to discover suitable subjects of his own Besides the use which the writer has already made of this material a part of the questions have been used at the University of Illinois by Dr Charles L Stewart from whom numerous helpful suggestions have been received Criticisms and suggestions from all who may use the book are cordially invited in order that the book may be revised at no distant date in the light of a broader classroom experience About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
