Competition Law in the ASEAN Countries Ploykaew Porananond, 2018-06-22 Amongst other regional organisations the Association of Southeast Asian Nations ASEAN stands out for the diversity of its ten Member States stemming from their respective economic and political heritage governance systems legal institutions stages of economic development and exposure to or reliance on foreign trade and investments. As of 2017 however the regional bloc has formalised its focus on economic integration and development of a regional competition law. Challenging this vision are the States very different national competition law systems ongoing problems with governmental intervention in the economy and lack of effective and efficient corruption free regulatory and juridical infrastructure. This book the first detailed analysis of competition law in the ASEAN countries looks at the prospects of implementation for the regional law and compares the existing systems in each Member State. Opening with a thorough description of the composition and organisation of the ASEAN the analysis proceeds to an in depth evaluation of such aspects as the following persistence of the ASEAN's traditional mode of dispute resolution often referred to as the ASEAN Way economic challenges posed by intra regional growth and globalisation the strong relationship between the business and government sectors and governmental interventions as cultural practices. There is detailed reference throughout to case law legislation institutional announcements relevant treaties and literature on both the ASEAN and competition law. As an important critical analysis of this major new regional competition law regime this book will be welcomed by competition law practitioners multinational corporation counsel and jurists officials and academics in a variety of legal fields. Although the subject is specifically the ASEAN the analysis contributes to a better understanding of competition law regimes in developing economies and to the more general literature on global competition law.

A comparative analysis of EU and US transnational mergers regulation Dimitris Liakopoulos, 2017-12-22 Document from the year 2017 in the subject Law Civil Private Trade Anti Trust Law Business Law grade A language English abstract The major problem associated with the regulation of transnational mergers which affect several national markets is the allocation of jurisdiction. Each country concerned may wish to exert jurisdiction and apply its national competition law to regulate the anti competitive effects a merger may have in its territory. However this approach may lead to risks of inconsistent decisions.

regarding the legality of mergers Indeed the national competition laws applied by the regulating authorities may diverge in several aspects which raise the likelihood of inconsistency The authors advocates the creation of an international merger control framework IMCF for the regulation of transnational mergers This framework will rest on an informal and a formal pillar The former includes non legally binding competition principles Consistency of these principles with the concepts of legitimacy and efficiency as well as the presence of peer reviews and assistance programmes should lower the risk of non implementation The formal pillar includes bilateral cooperation agreements which apply to merger affecting the countries which have concluded the agreements As essential pre condition for the application of bilateral agreements the level of cooperation achieved by such agreements should be at least equal to that ensured by the informal pillar The last part of the study addresses and examines the long and complex processes in merger and acquisition M A transactions M A arbitration faces certain difficulties during the transaction Such difficulties the author seeks to underline Two main problems of arbitration in M A transactions particularly have been covered Firstly the problem of consent in consolidation of parallel proceedings during M A transactions and secondly parties consent that validate arbitration agreements clauses in assignment or succession after M A transactions have been completed The author also tries to clarify the content of consent of parties to a transaction Finally a criticism of parallel proceedings is enhanced
