**The Genius Project Manager** Jorge Escotto Rodriguez, Jose Santiago Pedrosa, 2015-12-23 This book is about Genius the actual real thing It explains what Genius is how Geniuses can know what others cannot know where their unique ideas come from and how to fully develop Genius in yourself It explains how and why Genius speaks only its own language that of the non conscious mind which is entirely non linear the only non linearity that human brains can know Genius does not speak the fragmented sequential linear languages of waking

consciousness that occupy most of our time like the natural languages composed of words mathematics composed of numbers or computer code composed of both Believing that waking consciousness can of itself develop Genius at all is entirely an illusion It cannot ever This is why waking consciousness cannot directly be the source of solutions or innovations There is however an experiential field of possibilities in which waking consciousness and the non conscious mind can and must interact deliberately to develop ideas solutions innovations and ultimately Genius in an individual That playing field as regards accomplishing a project outcome or goal of any kind is our example and topic in specifically addressing project management It can be applied anywhere Genius is our birthright It is entirely accessible because it represents the infinite diversity this universe was designed for even in the midst of a historical Information Age of duplication commoditization and fabricated normalcy of oceans of fragmented data lined up in linear sequences in formation Ultimately this book is about becoming the person you intended yourself to be The Genius Walt Whitman was calling us to it when he wrote Failing to fetch me at first keep encouraged Missing me one place search another I stop somewhere waiting for you And so here we are waiting for you **Everybody Matters** Chuck C. Jones (Jr),2017 When I was a young project manager I thought technical knowledge of the project life cycle was the only factor necessary for success How wrong I was One experience in particular taught me that if all stakeholders aren't properly identified and analyzed all the technical knowledge in the world won't help
