Paul de B. Taillon,2001 Annotation The threat of terrorism knows no borders and given the complexities of today s global system no nation can afford to stand alone This study considers the role that international cooperation plays in assisting elite military forces engaged in low intensity and counter terrorist operations particularly hostage rescue efforts Using historical examples from the experiences of Great Britain and the United States the author concludes that cooperation ranging from shared intelligence to forward base access to the provision of observers can provide significant advantages in dealing with low intensity operations However the most fruitful joint efforts involve shared activities by countries that possess a similar threat perception usually in part a result of a common sociology in their view of historical developments Before turning to modern counter terrorism Taillon addresses the respective military experiences of Britain and America within the wider realm of conventional and low intensity operations The main Anglo American focus of the book gives primary importance to the developments and doctrine for the employment of special forces as well as an analysis of more recent low intensity and counter terrorism operations such as the 1980 Iranian embassy siege in London and the failure that same year of the American hostage rescue attempt in Teheran Taillon hopes to identify and highlight those key aspects of cooperation at an international level which have at least in part been absolutely essential to successful counter terrorist operations in the past and which seem destined to remain so in the future Negotiating Hostage Crises with the New Terrorists Adam Dolnik,Keith M. Fitzgerald,2008 Illuminates the role of negotiation in resolving terrorist barricade hostage crises If one assumes that negotiation is only about bargaining making deals or concessions then of course we should not negotiate with terrorists as this action is likely to ultimately lead to some rewards for their bad behavior However if one understands that negotiation ultimately is the use of communication to exercise influence in order to change someone s thinking behavior and decision making the Countering New(est) Terrorism Bruce Oliver Newsome,James W.
