How Europe Underdeveloped Africa Walter Rodney, 2018-11-27 A call to arms in the class struggle for racial equity the hugely influential work of political theory and history now powerfully introduced by Angela Davis Los Angeles Review of Books This legendary classic on European colonialism in Africa stands alongside C L R James Black Jacobins Eric Williams Capitalism Slavery and W E B Dubois Black Reconstruction In his short life the Guyanese intellectual Walter Rodney emerged as one of the leading thinkers and activists of the anticolonial revolution leading movements in North America South America the African continent and the Caribbean In each locale Rodney found himself a lightning rod for working class Black Power His deportation catalyzed 20th century Jamaica's most significant rebellion the 1968 Rodney riots and his scholarship trained a generation how to think politics at an international scale In 1980 shortly after founding of the Working People's Alliance in Guyana the 38 year old Rodney would be assassinated In his magnum opus *How Europe Underdeveloped Africa* Rodney incisively argues that grasping the great divergence between the west and the rest can only be explained as the exploitation of the latter by the former This meticulously researched analysis of the abiding repercussions of European colonialism on the continent of Africa has not only informed decades of scholarship and activism it remains an indispensable study for grasping global inequality today

Walter Rodney Karim F Hirji, 2017-01 Hirji makes a case that Rodney's seminal work retains its value for understanding where Africa has come from where it is going and charting the path towards genuine development for its people It is a succinct coherent defence of an intellectual giant who lived and died for humanity an essential read for anyone interested in Africa

Seven Myths of Africa in World History David Northrup,2017-09-01 Northrup s highly accessible book breaks through the most common barriers that readers encounter in studying African history Each chapter takes on a common myth about Africa and explains both the sources of the myth and the research that debunks it These provocative chapters will promote lively discussions among readers while deepening their understanding of African and world history The book is strengthened by its incorporation of actors and issues representing the African diaspora and African Americans in particular Rebecca Shumway College of Charleston

Power, Powerlessness, and Globalization Opoku Agyeman,2014-08-20 This book is about imperialism driven globalization its historic impact on Africa Latin America and Asia and over time the varied responses of the national political units and regional entities in these continents to the challenges of building countervailing power and laying foundations for independent development Where genuine recovery and empowerment have emerged this has been the result not only of the pursuit of dignitist political and economic values that emphasize robust and sustained productivity geared toward uplifting the living standards and dignity of all the members of the national society but also of the creation of indigenous institutions whose relations with the external world are defined by equality rather than dependence and subordination Opoku Agyeman argues that dignification is the fundamentally necessary response to imperialism s inevitable afflictions of national racial humiliation It is the most crucial ingredient in the complex of motivations that propel formerly weak nation states and regional communities to rise up and defend the honor of their people As Mao Zedong told the world in 1949 Ours will no longer be a nation subject to insult and humiliation We have stood up This study argues emphatically that it is a country s or region s developed or developing capabilities not its historic and continuing victimization or habitual dependence on charitable aid and other altruistic interventions from the international community that determines its success in escaping the scourge of powerlessness and underdevelopment It further maintains that a

people who have been brought low through brutal dehumanizing imperialism cannot bypass the need for redemptive empowerment if they wish to regain honor and a proper place in the world Finally it takes issue with Joseph Stiglitz Jeffrey Sachs and others like them whose moralistic critiques of the rapacity of imperialistic globalization carry the unfortunate implication that it is possible for a fair and just world social order to come out of incremental reforms of philanthropically motivated developed powerful countries in the structure and operations of global capitalism

How Europe and America Are Still Underdeveloping Africa Joseph R Gibson, 2021-01-03 The fact that 50% of the world's currently impoverished is African is a calculated result of European and American neocolonialism in Africa a concept Dr Walter Rodney could only begin to analyze What he did thoroughly recognize is that in order to understand present economic conditions in Africa one needs to know why it is that Africa has realized so little of its natural potential and one also needs to know why so much of its present wealth goes to non Africans who reside for the most part outside of the continent I wrote this book for two reasons One Walter Rodney's *How Europe Underdeveloped Africa* is arguably the most brilliant and influential book I've personally ever read As a social studies teacher I can't teach a world history economics or global issues lesson without somehow referring to it Same thing goes for many of the books I've written However with all due respect to Dr Rodney who himself even realized that ideally an analysis of underdevelopment should come even closer to the present than the end of the colonial period in the 1960s The phenomenon of neo colonialism cries out for extensive investigation in order to formulate the strategy and tactics of African emancipation and development *How Europe Underdeveloped Africa* does not go that far but *How Europe and America Are Still Underdeveloping Africa* does Moreover several current issues related to neocolonial underdevelopment in Africa which are again beyond the scope of Rodney's original volume need special emphasis such as the tyrannical role of the International Monetary Fund and its Structural Adjustment Policies the assassinations of several socialist African leaders like Muammar Gaddafi water privatization the external debt crisis global warming environmental racism the scramble for African oil genetically modified food with Terminator technology land grabbing for agrofuel production and export AFRICOM endemic African on African violence joblessness food insecurity and imported food dependency father hunger endemic HIV AIDS toxic waste colonialism and hazardous drug trials led by and for the principal benefit of Western pharmaceutical companies Two is the impact of the image of Africa accepted by African Americans on our collective self concept The image of Africa internalized by African Americans largely determines our self concept and self confidence and if that image is egregiously negative then we especially African Americans should have access to the true reasons why this image exists The situations that this negativity is based on are often blamed on corrupt rapacious immoral African leaders and the haplessly apathetic African masses with little if any mention of the fact that European and American governments and multinational corporations are still intentionally underdeveloping Africa

Neba-Fuh,2021-04-05 Emmanuel Neba Fuh in this comprehensive chronological compilation and thorough narrative of the history of white supremacy in Africa provide an unflinching fresh case that African poverty a central tenet of the shithole demonization is not a natural feature of geography or a consequence of culture but a direct product of imperial extraction from the continent a practice that continues into the present A brutal and nefarious tale of slave trade genocides massacres dictators supported progressive leaders murdered weapon smuggling cloak and dagger secret services corruption international conspiracy and spectacular military operations he raised the most basic and fundamental question how was Africa the world s richest continent raped and reduced to what Donald J Trump called shithole V Mbanwie The Legitimacy of International Reparations Claims from the Transatlantic Slave Trade. A Focus on Jamaica's Case against the United Kingdom Michael Bauer,2024-01-31 Seminar paper from the year 2022 in the subject Politics Region Middle and South America grade 1 0 Bielefeld University course Race and Racism Theories and Media Representations language English abstract In this paper I want to outline the discourse of legitimacy of international reparations claims resulting from the Transatlantic Slave Trade exemplified by the case of Jamaica the former British colony on the one hand and the United Kingdom on the other For a better understanding we will start with a brief historical outline of what reparations are in the first place and why they are suitable to function as an act of reconciliation for historical wrongs In the following we will look specifically at the case of Jamaica s reparation claims against Great Britain whereby Jamaica is not acting alone but in conjunction with other Caribbean states In doing so we will trace what exactly Jamaica and other CARICOM countries are demanding reparations for and how they justify it In the course of this the question will logically arise as to why Great Britain has not complied with these well founded demands to date which is why the counterarguments will be examined more closely in the fourth chapter This will be followed by a brief look into the future with an assessment of how the British government could most likely be persuaded to engage with the reparation demands How African Leaders Underdeveloped Africa Tunde Akodu,2005 The Groundings With My Brothers Walter Rodney,2019-04-23 I have sat on a little oil drum rusty and in the midst of garbage and some black brothers and I have grounded together Walter Rodney In his short life the Guyanese intellectual Walter Rodney emerged as one of the leading thinkers and activists of the anticolonial revolution leading movements in North America South America the African continent and the Caribbean In each locale Rodney found himself a lightning rod for working class Black Power His deportation catalyzed 20th century Jamaica s most significant rebellion the 1968 Rodney riots and his scholarship trained a generation how to think politics at an international scale In 1980 shortly after founding of the Working People s Alliance in Guyana the 38 year old Rodney would be assassinated In this classic work published in the heady days of international black power Groundings with My Brothers details the global circulation of emancipatory ideas but also offers first hand reports of Rodney s mass movement organizing Introduced and contextualized by leading Caribbean scholar activists this updated edition brings Rodney s legacy to a new generation of radicals *The*
