Preparing Vietnam for new rules on international market Pham, T.T., Nguyen, D.T., Đào Thi, L.C., Hoàng, T.L., 2020-03-11

Deforestation free production will be a requirement of the global market from now through 2030 More than 1 000 financial institutions e g banks trusts donors and 600 multinational companies have pledged to produce and supply zero deforestation agricultural products and these establishments financial institutions and multinational companies are developing a process of testing screening and certification for service providers and countries that produce or export agroforestry products The governments of European countries the Americas and Australia are also aggressively building a legal framework to monitor and verify that imported goods have not resulted in deforestation or forest degradation In Vietnam 92 domestic and foreign companies from 21 fields and industries have signed commitments to achieve zero deforestation by 2020 These industries include fashion apparel and footwear agriculture cosmetics and personal care food and agriculture retail chains home construction furniture and flooring and renovation supplies consumer goods paper and packaging printing and publishing and automotive industry rubber automobile manufacturing These companies contribute greatly to the national GDP and local economic development and are major buyers of agricultural products including coffee wood soybeans and poultry However businesses in Vietnam are not prepared to adapt the supply chain of agroforestry products to this trend they require knowledge and skills to face the new market requirements Without further research and long term planning Vietnam s agroforestry products industry is at risk of losing market share to fierce international competition leading to enormous economic losses for the country The government needs to develop a legal framework to support and monitor companies that meet deforestation free commitments while building the capacity of stakeholders to respond to the requirements of new markets in order to ensure a solid position for agroforestry products and their sustainable contribution to the national economy over the next 30 years

The IKEA Edge: Building Global Growth and Social Good at the World's Most Iconic Home Store Anders
Dahlgv, 2011-11-10 Praise for The IKEA Edge A very good book from a talented business leader that links values culture and
the achievement of business and social objectives together I have read it now three times and learned something from every
passage Michael Spence recipient of the Nobel Memorial Prize in Economic Sciences 2001 With Anders Dahlgv's
recommendations we could solve many of the world's problems by persuading the big multinationals to change their
Memorandum and Articles of Association Big business working in the interests of humanity would be a powerful tool Gordon
Roddick cofounder of The Body Shop The IKEA Edge is a fascinating case study of an entrepreneurial company's growth to
maturity Anders Dahlgv is incisive and surprisingly straightforward in sharing the IKEA story As a fourth generation family
business owner I recognize the inherent paradox of building a good value driven company and managing for profit Anders
Dahlgv proves it can be done Antonia Axson Johnson Chairperson Axel Johnson AB About the Book With Anders Dahlgv at
the helm from 1999 to 2009 the furniture giant IKEA averaged 11 percent yearly sales growth and annual operating profits in
excess of 10 percent The company hired more than 70 000 new employees and opened new stores around the world all while
maintaining its reputation as one of the world's best corporate citizens In The IKEA Edge Dahlgv tells the story of how IKEA
matured from an entrepreneurial startup to a leader in the furniture industry He recounts his 26 year career at the company
and what he learned along the way In his rise from store manager to president Dahlgv developed the unique vision he relied
upon to lead IKEA through good times and bad by combining traditional business goals like profit and growth with the
progressive interests of social responsibility and environmental stewardship Dahlgv proves that these objectives which are

usually viewed as polar opposites can actually work wonders together The IKEA Edge serves as an expansive case study for doing good business while being a good business Dahlvig clearly lays out the cornerstones that support IKEA a vision of social responsibility market leadership with a balanced global portfolio differentiation through control of the value chain and building for the long term four principles that can be applied in any business in any industry social and business agenda and it continues to grow even during the worst global recession in history In a time when the public s trust of business has hit bottom such an approach to business is more critical than ever A combination of personal memoir call to action and strategic vision The IKEA Edge provides the inspiration and information you need to develop a social good good business agenda for your own company Public trust brand recognition customer loyalty and a world class reputation will soon follow *Ikea* Robert D. Hisrich, Claudine Kearney, 2016 This case reviews the entrepreneurial example of IKEA and the expansion of the company It examines the profile of the company s founder the innovative Ingvar Kamprad and his early beginnings in his hometown in Sweden **IKEA, the Book** Staffan Bengtsson, 2010 **The National Launch of an International Brand** Nükhet Vardar, 2018 In the story of IKEA we see how its founder Ingvar Kamprad started his business in a village in 1943 under conditions where scarcity was the norm However by putting his heart and creativity into every single step he took questioning the usual way of doing business trying to do things differently by applying innovation he began getting better market results than others had done This case presents the backstory to how IKEA grew and how it became an international operation In addition we examine in context the criteria for becoming an international brand and see how global marketing can be practiced without alienating local markets Some international marketing strategies of IKEA are also discussed by analyzing the IKEA entry strategy into the Turkish market in 2005 learning the approach taken at its launch which elements of marketing were standardized and which were adapted for improving market results In this case we see whether the IKEA entry strategy into the Turkish market yielded the expected market results and also consider the required success conditions for attaining satisfactory results in global marketing
