Schuler, 2023-08-31 According to bestselling historian Yuval Noah Harari today's average American has their foot in three ideological camps nationalism free market capitalism and humanism The first two might seem obvious but the third It's entirely possible that most who qualify for that label would be hard pressed to explain its meaning much less use it self descriptively This book is designed to serve two important purposes First to provide an accessible resource for anyone curious about the humanist tradition and the arguments advanced by leading contemporary proponents Second to address what the author believes is a critical question for our time the era of the Anthropocene Is humanism's seemingly benign package of values at least partially responsible for some of the world's most pressing problems To answer the last question Schuler draws from an eclectic collection of commentators including life scientists spiritual writers public intellectuals technologists novelists and even poets In the end this wide ranging survey will help the reader determine whether humanism makes sense for them *The Legacy of Edward W. Nnroth Outi Merisalo Marita Akhøj Nielsen and Nestori Siponkoski **Post-Orientalism**

Hamid Dabashi, 2017-07-28 Post Orientalism is a sustained record of Hamid Dabashi's reflections over many years on the question of authority and power Who gets to represent whom and by what authority Dabashi's work picks up where Edward Said's Orientalism left off Said traced the origin of the power of representation and the normative agency that it entails to the colonial hubris that carried a militant band of mercenary merchants military officers Christian missionaries and European Orientalists around the globe This hubris enabled them to write and represent the people they sought to rule Dabashi's book is not as much a critique of colonial representation as it is of the manners and modes of fighting back and resisting it He does not question the significance of Orientalism and its principal concern with the colonial acts of representation but he provides a different angle that argues for the primacy of the question of postcolonial agency Dabashi uses the United States as an example of a country that initiated militant acts of representation in Iraq and Afghanistan He attempts to unearth and examine the United States deeply rooted claim to normative and moral agency particularly in light of the world's post 9 11

political reality **The Legacy of Edward W. Said** William V. Spanos, 2010-10-01 With the untimely death of Edward W. Said in 2003 various academic and public intellectuals worldwide have begun to reassess the writings of this powerful oppositional intellectual. Figures on the neoconservative right have already begun to discredit Said's work as that of a subversive intent on slandering America's benign global image and undermining its global authority. On the left a significant number of oppositional intellectuals are eager to counter this neoconservative vilification proffering a Said who in marked opposition to the anti-humanism of the great poststructuralist thinkers who were his contemporaries Jacques Derrida Jean Francois Lyotard Jacques Lacan Louis Althusser and Michel Foucault reaffirms humanism and thus rejects poststructuralist theory. In this provocative assessment of Edward Said's lifework William V. Spanos argues that Said's lifelong anti-imperialist project is actually a fulfillment of the revolutionary possibilities of poststructuralist theory. Spanos examines Said's legacy and the various texts he wrote including *Orientalism*, *Culture and Imperialism* and *Humanism and Democratic Criticism* that are now being considered for their lasting political impact.

Unsettling the World Jeanne Morefield, 2022-04-29 *Unsettling the World* is the first book-length treatment of Edward Said's influential cultural criticism from the perspective of a political theorist. Arguing that the generative power of Said's thought extends well beyond *Orientalism*, the book explores Said's writings on the experience of exile, the practice of contrapuntal criticism and the illuminating potential of worldly humanism. Said's critical vision, Morefield argues, provides a fresh perspective on debates in political theory about subjectivity, global justice, identity and the history of political thought. Most importantly, she maintains, Said's approach offers theorists a model of how to bring the insights developed through historical analyses of imperialism and anti-colonialism to bear on critiques of contemporary global crises and the politics of American foreign policy.

Globalization and Literary Studies Joel Evans, 2022-04-21 This book provides a history of the way in which literature not only reflects but actively shapes processes of globalization and our notions of global phenomena. It takes in a broad sweep of history from antiquity through to the era of imperialism and on to the present day. Whilst its primary focus is our own historical conjuncture, it looks at how earlier periods have shaped this by tracking key concepts that are imbricated with the concept of globalization from translation to empire to pandemics and environmental collapse. Drawing on these older themes and concerns, it then traces the germ of the relation between global phenomena and literary studies into the 20th and 21st centuries, exploring key issues and frames of study such as contemporary slavery, the digital world, literature and the Anthropocene.

Nothing Sacred Stathis Gourgouris, 2024-05-07 *Nothing Sacred* makes a bold call for reconceptualizing the projects of humanism and democracy as creative sources of emancipatory meaning from the immediate political sphere to the farthest reaches of planetary ways of living. Restaging Aristotle's classic notion of the political animal in broad historical and geographical frames, Stathis Gourgouris explores the autopoietic capacities of human being in society while developing new frameworks of anticolonial humanism and radical democracy as the only worthy adversaries of neoliberal capitalism. This reconfigured anthropological

horizon enables us to imagine new ways of living by learning to pursue a radical politics of autonomy and a planetary vision that upholds life affirming coexistence and equal sharing against the fetishism of hierarchy and servitude money and technologic sovereignty and endless growth Written with daring erudition and anarchic contestation this book seeks the political through a poetic perspective Nothing Sacred rejects niche thinking in the academy and engages a vast domain of reflections on the problem of human being in today s dismal world **The Geocritical Legacies of Edward W.
