Metaphors of Mental Illness in Graphic Medicine Sweetha Saji, Sathyaraj Venkatesan, 2021-10-21 This book investigates how graphic medicine enables sufferers of mental illness to visualise the intricacies of their internal mindscape through visual metaphors and reclaim their voice amidst stereotyped and prejudiced assumptions of mental illness as a disease of deviance and violence. In this context, by using Lakoff and Johnson's conceptual metaphor theory (CMT), this study uncovers the broad spectrum of the mentally ill's experiences, a relatively undertheorised area in medical humanities. The aim is to demonstrate that mentally ill people are often represented as either grotesquely exaggerated or overly romanticised across diverse media and biomedical discourses. Further, they have been disparaged as emotionally drained and unreasonable individuals incapable of active social engagements and against the healthy, sane society. The study also aims to unsettle the sanity/insanity binary and its related patterns of fixed categories of normal/abnormal, which depersonalise the mentally ill by critically analysing seven graphic narratives on mental illness.

HandiLand Elizabeth A. Wheeler, 2019-08-21 HandiLand looks at young adult novels, fantasy series, graphic memoirs, and picture books of the last 25 years in which characters with disabilities take center stage for the first time. These books take what others regard as weaknesses—for instance, Harry Potter's headaches or Hazel Lancaster's oxygen tank—and redefine them as part of the hero's journey. HandiLand places this movement from sidekick to hero in the political contexts of disability rights movements in the United States, the United Kingdom, and Ghana. Elizabeth A. Wheeler invokes the fantasy of HandiLand, an ideal society ready for young people with disabilities before they get there, as a yardstick to measure how far we've come and how far we still need to go toward the goal of total inclusion. The book moves through the public spaces young people with disabilities have entered, including schools, nature, and online communities. As a disabled person and parent of children with disabilities, Wheeler offers an inside look into families who collude with their kids in shaping a better world. Moving, funny, and beautifully written, HandiLand: The Crippest Place on Earth is the definitive study of disability in contemporary literature for young readers.
