I Fiumi Giuseppe Ungaretti:

A Selection of Modern Italian Poetry in Translation Roberta L. Payne, 2004 What was Italian poetry like in the years of extraordinary historical intellectual aesthetic and spiritual change between the 1860s and the Unification of Italy in the 1960s In A Selection of Modern Italian Poetry in Translation Roberta Payne provides a bilingual collection of ninety two poems by thirty five Italian poets including works of classicism and passionate decadentism examples of crepuscularism and poetry by Ungaretti Montale and Quasimodo Payne pays particular attention to poets of the fifties and sixties futurists and female poets She notes that the futurists who have rarely been translated were particularly important as they were truly original attempting to develop new notions of word line sound and phrase Such new notions make translating them particularly challenging She also offers a large sampling from poets of the fifties and sixties many of whom have won the Viareggio Prize Poems by women in this volume reflect diverse schools and directions while maintaining a distinctly female voice Containing the original Italian and the translation side by side this volume offers a wonderful introduction to Italian poetry to scholars and general readers alike *Giuseppe Ungaretti, the Master of Hermeticism, Translated In English* Alessandro Baruffi, 2020-10-31 The most comprehensive English translation of the work of Giuseppe Ungaretti 1888 1970 the leading representative of the experimental literary movement called Hermeticism or Hermetic poetry This edition includes poems from all of his major collections *Porto Sepolto* 1916 *L'allegria di naufragi* 1919 *L'allegria* 1931 *Sentimento del tempo* 1933 and *Il dolore* 1947 A Major Selection of the Poetry of Giuseppe Ungaretti Giuseppe Ungaretti, 1997 Ungaretti's beautiful biography is a splendid poetic portrait of the spirit of the first half of this century in Italy and in the whole of Europe This is the first time anywhere that all of the poet's verse has been presented in translation *Autobiographical Poetry in England and Spain, 1950-1980* Menotti Lerro, 2017-03-07 The volume traces the founding critical theories of the autobiographical genre from the Enlightenment period to the most recent developments which since the Sixties and the essays of Roy Pascal and Jean Starobinski have had a greater and greater influence It offers in contrast to the essential and by now classic definition of Philippe Lejeune an increased effectiveness of the poem to express the narrative purposes of autobiography recognizing poetic writing that has the extraordinary ability to say what the mortal language does not say to quote Leopardi The works of Seamus Heaney Thom Gunn Carlos Barral and Jaime Gil de Biedma are analyzed here and show an unveiling of the self through memories places and objects that often characterize them and that allow to whomever recalls one's own experience through writing the recovery and restoration of essential meanings to the reconstruction not only of subjective identity but also of one's own community **The Poetry of the Americas** Harris Feinsod, 2017-09-08 The Poetry of the Americas offers a lively and detailed history of relations among poets in the US and Latin America spanning three decades from the Good Neighbor diplomacy of World War II through the Cold War cultural policies of the late 1960s Connecting works by Martin Amis Elizabeth Bishop Paul Blackburn Jorge Luis Borges Julia de Burgos Ernesto Cardenal Jorge

Carrera Andrade Allen Ginsberg Langston Hughes Jos Lezama Lima Pablo Neruda Charles Olson Octavio Paz Heberto Padilla Wallace Stevens Derek Walcott William Carlos Williams and many others Feinsod reveals how poets of many nations imagined a poetry of the Americas that linked multiple cultures even as it reflected the inequities of the inter American political system This account offers a rich contextual study of the state sponsored institutions and the countercultural networks that sustained this poetry from Nelson Rockefeller s Office of the Coordinator for Inter American Affairs to the mid 1960s avant garde scene in Mexico City This innovative literary historical project enables new readings of such canonical poems as Stevens s Notes Toward a Supreme Fiction and Neruda s The Heights of Macchu Picchu but it positions these alongside lesser known poetry translations anthologies literary journals and private correspondences culled from library archives across the Americas The Poetry of the Americas thus broadens the horizons of reception and mutual influence and of formal historical and political possibility through which we encounter midcentury American poetry recasting traditional categories of U S or Latin American literature within a truly hemispheric vision **Aquatic Environments** Bieke

Willem,Rebecca Seewald,2025-07-27 From pre Columbian times till today human interventions in aquatic environments have been shaping the geopolitics of Latin America The contributors to this volume examine the relationship between water and politics in Latin America via readings of fiction and poetry by both renowned and upcoming writers Through close literary analysis they demonstrate how water functions as a medium for narrating submerged histories and for unsettling post colonial assumptions The volume reveals literary strategies that make it possible to share knowledge about other ways of organizing life in aquatic environments Environmental Thought in the Graeco-Roman World Orietta Dora

Cordovana,2024-09-23 The debate that has arisen around the concept of the Anthropocene forms the basis of this book It investigates certain forms of environmental interrelation and ecological sensitivity in the Graeco Roman world The notions of environmental depletion exploitation and loss of plant species and the ancients knowledge of species diversity are the main cores of the research The aim is to interrogate historical sources and diverse evidence and to analyse political and socioeconomic structures according to a reading focused on possible antecedents cultural prodromes alignments of thought or divergencies with respect to major modern environmental problems and current ecological conceptualisations As a result sustainable behaviour biodiversity and its practical uses can also be identified in ancient societies In the context of environmental studies this contribution is placed from the perspective of a historian of antiquity with the aim of outlining the forma mentis and praxis of the ancients with respect to specific environmental issues Ancient civilizations always provided ad hoc solutions for specific emergencies but never developed a comprehensive ecological culture of environmental protection as in modernity *Mirage and Camouflage* Vivienne Suvini-Hand,2000 This study explores the tensions and contradictions in the themes and style of L Allegria It establishes links between Ungaretti and the French Symbolist poets and reexamines the collection s affinity with the work of De Chirico Cubism Futurism and Surrealism Offering ground breaking views

particularly on the war poems it demonstrates how Ungaretti used the obscure nature of Hermetic language to express his proto Fascist and Nietzschean sympathies thus destroying the myth of Ungaretti as a man of peace searching for a religious answer to the problems of existence [Trieste](#) Daša Drndić, 2014 An old Italian woman seeks a reunion with her son fathered by an SS officer and taken away by German authorities sixty two years ago while she remembers and discusses the atrocities committed in Northern Italy during World War II *Roads and Ruins* Paul Baxa, 2010-01-01 In the 1930s the Italian Fascist regime profoundly changed the landscape of Rome's historic centre demolishing buildings and displacing thousands of Romans in order to display the ruins of the pre Christian Roman Empire This transformation is commonly interpreted as a failed attempt to harmonize urban planning with Fascism's ideological exaltation of the Roman Empire *Roads and Ruins* argues that the chaotic Fascist cityscape filled with traffic and crumbling ruins was in fact a reflection of the landscape of the First World War In the radical interwar transformation of Roman space Paul Baxa finds the embodiment of the Fascist exaltation of speed and destruction with both roads and ruins defining the cultural impulses at the heart of the movement Drawing on a wide variety of sources including war diaries memoirs paintings films and government archives *Roads and Ruins* is a richly textured study that offers an original perspective on a well known story **Il battito della vita.
