intelligent cities rise up against humanity in this excellent novel It came on me as a surprise and it knocked me out Harlan Ellison In a theocratic world far into the future cities control their own movements and organization Constantly moving growing and decaying taking care of every need their inhabitants might think of the cities have decided that humans are no longer a necessary part of their architecture casting them out to wander in the wilderness and eke out a meager subsistence To the exiled humans the cities represent a paradisiacal Eden a reminder of all they cannot attain due to their sinful and unworthy natures But things are beginning to change People are no longer willing to allow the cities to keep them out choosing instead to force an entry and plunder at will The cities are starting to crumble and die because they have no purpose or reason to continue living without citizens One woman called mad by some and wise by others is the only human

allowed to inhabit a city From her lonely and precarious position at the heart of one of the greatest cities ever she must decide the fate of the relationship between human society and the ancient strongholds of knowledge while making one last desperate attempt to save the living cities **Eternity** Greg Bear,2014-04-01 The New York Times bestselling author of Eon continues the interstellar saga of the Way A devastating war has left Earth a nuclear wasteland Orbiting the planet is the asteroid starship containing the civilization of Thistledown humanity's future descendants For decades they have worked to heal their world and its survivors but their resources are finite They need to reopen the Way An interdimensional gateway to a multiverse of realities the Way was severed from Thistledown to stop an alien invasion and now exists as its own universe Reopening the gate would not only benefit Earth but would also help the asteroid's residents return home But on the alternate world of Gaia Rhita Vaskayza daughter of mathematician Patricia Vasquez has taken up her mother's cause to find her own Earth one that was never touched by nuclear war There is a gateway on Gaia that could lead Rhita there or unleash an even greater apocalypse across the multiverse Whether he's tinkering with human genetic material or prying apart planets Bear goes about the task with intelligence and a powerful imagination Eternity offers many delights Locus
