Civil Service Reform and the World Bank

Barbara Nunberg
and
John Nellis

Some argue that the complexity and uncertainty of civil service reform place the field outside the Bank's comparative advantage. But a retreat from civil service management reform is tantamount to denying the crucial importance of government administrative capacity to implement economic and social programs. A more realistic approach is to try to learn, through trial and error, how to make such programs work better.

The Policy, Research, and External Affairs Complex sponsors PRE Working Papers to disseminate the findings of work in progress and to encourage the exchange of ideas among Bank staff and all others interested in development issues. These papers carry the names of the authors, reflect only their views, and should be used and cited accordingly. The findings, interpretations, and conclusions are the authors' own. They should not be attributed to the World Bank, its Board of Directors, its management, or any of its member countries.
