Food Protected Designation of Origin, 2013-06-11 Protected designation of origin PDO taken together with other geographical indicators such as protected geographical indication PGI and traditional specialty guaranteed TSG offer the consumer additional guarantees on the quality and authentication of foods. The economic value of these regional foods as well as the increased interest from consumers and the food industry about the traceability and origin of food mean that it has become necessary to establish methods for PDO and PGI authentication based on the specific characteristics and chemical markers of these kinds of products. This book offers a complete guide of the methods available to authenticate food PDO beginning with an explanation of the analytical and chemometric methods available for PDO authentication before looking at the main foods covered PGI labels and the social and legal framework for food PGIs. It will be of interest to people engaged in the fields of food production, commercialization and consumption as well as policymakers and control laboratories.
