Cognitive Linguistics In Critical Discourse Analysis:

Cognitive Linguistics in Critical Discourse Analysis Christopher Hart, Dominik Lukeš, 2009-03-26 In contemporary linguistics both cognitive and critical approaches to language have been elaborated in some detail Unfortunately the two perspectives have seldom converged despite the potential theoretical advances such collaboration offers The contributions to this volume explore the convergence of cognitive and critical trends in the guise of Cognitive Linguistics and critical discourse analysis The volume addresses a range of socio political discourses in various international contexts including discourses on nation education immigration and war One single integrated model is not presented but rather a number of methodologies are developed and assessed across the chapters The application of established Cognitive Linguistic theories including conceptual metaphor theory conceptual blending theory and frame semantics are discussed as well as developing theories such as metaphor power theory and discourse space theory The book is of value to anyone interested in the interaction between language mind and society including both students and scholars of Cognitive Linguistics and Critical Discourse Analysis

Critical Discourse Analysis and Cognitive Science C. Hart, 2010-10-20 This study advances a model for Critical Discourse Analysis which draws on Evolutionary Psychology and Cognitive Linguistics applied in a critical analysis of immigration discourse It will be of special interest to students and researchers with which to explore new perspectives in CDA

Cultural Linguistics and Critical Discourse Studies Monika Reif, Frank Polzenhagen, 2023-11-15 The present volume explores the meeting ground between Critical Discourse Studies and Cultural Linguistics The contributions investigate culture specific conceptualisations ways of framing and conceptual metaphors in political discourse as well as cultural models cultural stereotypes and stereotyping The individual authors use quantitative e g corpus based approaches and or qualitative methods They address a range of contexts e g Europe the US Japan West Africa and a variety of topics e g migration presidential elections identity food culture concepts of health The papers included in this volume show that ideologies the key concern of Critical Discourse Studies cannot be analysed independently of cultural conceptualisations In a complementary dialectic fashion cultural conceptualisation the central concern of Cultural Linguistics have ideological implications sometimes subtle sometimes very straightforward The present volume thus illustrates that travelling on this meeting ground is a natural and fruitful endeavour for both approaches

Ten Lectures in Cognitive Linguistics Christopher Hart, 2024-03-18 In this book Christopher Hart provides a comprehensive description of an applied form of Cognitive Linguistics in Cognitive Critical Discourse Analysis Cognitive CDA Cognitive CDA applies frameworks in cognitive linguistics in analyses of political texts and talk to highlight the ideological qualities and legitimating functions of conceptualisations associated with dominant discourse practices Across the ten lectures various frameworks in cognitive linguistics are applied including cognitive grammar conceptual semantics conceptual metaphor theory and discourse space theory Texts and talk from a variety of contexts and genres are analysed In the final two lectures Cognitive CDA is extended

to multimodal data in the form of images and gestures

Cognitive Linguistic Approaches to Text and Discourse

Christopher Hart, 2019-05-15 Drawing on range of text genres including novels poems health forums holiday guestbooks prayers political songs and news stories each chapter uses cognitive linguistics to shed light on the meanings and meaning making processes invoked when we encounter texts belonging to different literary and political genres The book presents new insights into the workings of textual phenomena such as metaphor viewpoint and deixis and also sheds light on more elusive epiphenomenal qualities such as a text's ambience atmosphere power ideology or persuasiveness It also takes new strides in cognitive text analysis by exploiting experimental and ethnographic methods to empirically investigate readers reception of and resistance to texts

Critical Discourse Studies in Context and Cognition

Christopher Hart, 2011-08-17 Critical Discourse Studies CDS is an exciting research enterprise in which scholars are concerned with the discursive reproduction of power and inequality However researchers in CDS are increasingly recognising the need to investigate the cognitive dimensions of discourse and context if they want to fully account for any connection between language legitimisation and social action This book presents a collection of papers in CDS concerned with various ideological discourses Analyses are firmly rooted in linguistics and cognition constitutes a major focus of attention The chapters which are written by prominent researchers in CDS come from a broad range of theoretical perspectives spanning pragmatics cognitive psychology and cognitive linguistics The book is essential reading for anyone working at the cutting edge of CDS and especially for those wishing to explore the central place that cognition must surely hold in the relationship between discourse and society

Critical Discourse Analysis and Language Cognition

Kieran O'Halloran, 2003 This text offers a new way forward for highlighting language manipulation on behalf of lay readers as well as for enhancing the interpretative authority of the analyst It accomplishes this through the innovation of a model of lay reader processing The model is an original synthesis of elements from four contemporary cognitive frameworks connectionism cognitive linguistics psycholinguistic evidence on inference generation relevance theory

Discourse, Grammar and Ideology

Christopher Hart, 2014-10-23 Researchers in critical discourse analysis CDA have often pointed to grammar as a locus of ideology in discourse This book illustrates the role that grammars as models of language and image can play in revealing ideological properties of texts and discourse in social and political contexts The book takes the reader through three distinct grammatical frameworks functional grammar multimodal grammar and cognitive grammar Using examples taken from a range of discourses relating to globalisation including discourses of immigration war corporate practice and political protests the book demonstrates the individual utility and the interconnectedness of these models inside CDA A key argument advanced is that the cognitive processes necessarily involved in making sense of language are based in visual experience This position offers new ways of understanding the ideological effects of grammatical choices in texts and suggests a reassessment of the relationship between linguistic and multimodal grammars in CDA The book will appeal to students and
