The Frankenstein Notebooks Charles Robinson, 2020-06-01 Mary Shelley's *Frankenstein* is arguably the best known work of the English Romantic period. First published in 1996, this edition of *The Frankenstein Notebooks* contains not only facsimiles and transcriptions of all of surviving manuscripts related to the novel and a corrected critical text of *Frankenstein* or *The Modern Prometheus* but also a full range of factual information drawn from Shelley's and William Godwin's letters and journals from newspaper ads of the day and from other available scholarship about the conception, gestation, and birth of Mary Shelley's monster. This two-volume set contains a wealth of information vital to the creation and reception of *Frankenstein*. It will enable scholars, critics, and students to see for themselves the exact extent of P. B. Shelley's editorial contributions and trace the artistic and ideological development of the novel at various stages in its formation. It will also enable the reader to explore the text itself to test and evaluate their own theses. Part one contains the draft notebook A, which was written between August or September and December 1816. This set will be of keen interest to those studying *Frankenstein*, the Romantics, and 19th-century literature.

The Realist Novel Dennis Walder, 2005-08-18 This book guides the student through the fundamentals of this enduring literary form. By using carefully selected novels, the authors provide a lively examination of the particular themes and modes of realist novels of the period.

The War on Words Michael T. Gilmore, 2010-08-15 How did slavery and race impact American literature in the nineteenth century? In this ambitious book, Michael T. Gilmore argues that they were the carriers of linguistic restriction, and writers from Frederick Douglass to Stephen Crane wrestled with the demands for silence and circumspection that accompanied the antebellum fear of disunion and the postwar reconciliation between the North and South. Proposing a radical new interpretation of nineteenth-century American literature, *The War on Words* examines struggles over permissible and impermissible utterance in works ranging from Thoreau's *Civil Disobedience* to Henry James's *The Bostonians*. Combining historical knowledge with groundbreaking readings of some of the classic texts of the American past, *The War on Words* places Lincoln's Cooper Union address in the same constellation as Margaret Fuller's feminism and Thomas Dixon's defense of lynching. Arguing that slavery and race exerted coercive pressure on freedom of expression, Gilmore offers here a transformative study that alters our understanding of nineteenth-century literary culture and its fraught engagement with the right to speak.

Rolwing, 2017-02-13 Chief Justice Marshall said the legislature makes the executive executes and judiciary construes the law James Wilson quoted Francis Bacon two hundred years earlier saying that making law is not for the judges Chief Justice Hutchinson of Massachusetts in 1767 said that the Judge should never be the Legislator because then the Will of the Judge would be the Law and this tends to a State of Slavery Justice Wilson himself said in 1789 that when once it is established that Congress possesses the power to pass an act our province ends with its construction The province of the courts is to pass upon the validity of laws not to make them and when their validity is established to declare their meaning and apply their provisions All else lies beyond their domain p 379 In 1960 Charles Black confirmed that for the colonists the function of the Judge was thus placed in sharpest antithesis to that of the Legislator who alone was concerned with what the law ought to be Washingtons farewell address told the delegates to confine themselves within their respective Constitutional spheres avoiding in the exercise of powers of one department to encroach upon another The spirit of encroachment tends to consolidate the powers of all the departments in one and thus to create a real despotism In 1926 Justice Brandeis stated The doctrine of separation of powers was adopted to preclude the exercise of arbitrary power **Evergreen: a Guide to**

Writing with Readings Fawcett, 2004 Was Frankenstein Really Uncle Sam? Vol. Vi Richard J. Rolwing, 2007-12-18 This is one of eight volumes on the Declaration The first four contain each 365 essays These last four contain about 25 essays each Rolwing examines nearly all the major writers on our Basic Charter most of whom repudiate it He focuses on their manifold criticisms and rejections reveals their multiple distortions and misunderstandings rebukes their self contradictions and inconsistencies and pities their general Theophobia He argues that while America was Founded almost completely by Protestant Christians the only two deists were not even deists what was Founded was formally only a philosophical product not a faith based or Christian one although the philosophy had been more Catholic than Protestant Rolwing makes a great deal of American history law ethics politics philosophy and theology easily accessible to the average reader Read any of these books and you will clap your hands that you are an American Certainly the Declaration is worth many an hour explaining and defending it Mr Rolwing seeks to make the problems brought up about the document capable of being understood by both scholar and ordinary citizen Fr James Schall S J *Who Really Matters* Art Kleiner, 2003-10-14 In a breakthrough Organization Man for the twenty first century bestselling author Art Kleiner reveals that every organization is driven by a desire to satisfy a Core Group of influential individuals and explains why understanding this group s expectations is the key to success When corporate leaders announce with seeming sincerity We make our decisions on behalf of our shareholders their words are taken at face value But as recent news stories prove this imperative is routinely violated In *Who Really Matters* Art Kleiner argues that the dissonance between a declared mission and actual operation can be seen at organizations large and small All organizations have one motive in common Every decision which projects to back who to promote or how

to spend money is affected by the perceived wants and needs of a core group of people who really matter. The composition of the group can differ from organization to organization. Often the most senior people in the hierarchy are members but not always. Sometimes the people who matter can extend far down the corporate ladder or even reach outside the company to include key customers, labor union leaders, and stockholders. Kleiner gives readers clues about how to identify a core group's real mission by observing its day-to-day actions, listening to the fundamental message it sends, examining its management of new members, understanding the ideas that shape its policies about management money and the way the world works, and avoiding the taboos governing the way it operates. Whether you're a member of the Core Group or want to be, this deft, engaging blend of argument and observation, anecdotes and advice is the one guide you'll need to achieve your career goals and aspirations by navigating the hidden pathways in any organization, large or small.

Islamic Theology and Extraterrestrial Life Jörg Matthias Determann, Shoaib Ahmed Malik, 2024-02-22 Over the last thirty years, humanity has discovered thousands of planets outside of our solar system. The discovery of extraterrestrial life could be imminent. This book explains how such a discovery might impact Islamic theology. It is the foundational reference on the subject, comprising a variety of different insights from both Sunni and Shi'i positions from different Muslim contexts and with chapters that compare and contrast Islamic perspectives with Christianity. Together, they address some of our biggest questions through an Islamic lens: What makes humans unique in the cosmos? What are the ethics of dealing with other sentient beings? And how universal is salvation? Given the accelerating advances in exoplanet research and astrobiology, the book is at the frontier of science and Islamic thought. Contributors include a range of leading experts from Muslim theologians, scholars of comparative religion, and philosophers to historians, social scientists, and natural scientists.

The Holocaust Film

Sourcebook: Fiction Caroline Joan Picart, 2004 A comprehensive filmography listing fictional narrative films in the first volume and documentary and propaganda films in the second. The films listed alphabetically were produced in many different countries. The work lists films made during World War II and after, including Nazi films. Each entry provides bibliographic information, a summary of the story, and a list of primary and secondary sources. Each volume contains a few spotlight essays.

The Parallax View Slavoj Žižek, 2009-02-13 In his long-awaited magnum opus, he theorizes the parallax gap in the ontological, the scientific, and the political, and rehabilitates dialectical materialism. *The Parallax View* is Slavoj Žižek's most substantial theoretical work to appear in many years. Žižek himself describes it as his magnum opus. Parallax can be defined as the apparent displacement of an object caused by a change in observational position. Žižek is interested in the parallax gap separating two points between which no synthesis or mediation is possible, linked by an impossible short circuit of levels that can never meet. From this consideration of parallax, Žižek begins a rehabilitation of dialectical materialism. Modes of parallax can be seen in different domains of today's theory, from the wave-particle duality in quantum physics to the parallax of the unconscious in Freudian psychoanalysis, between interpretations of the formation of the unconscious and

theories of drives In *The Parallax View* i ek with his usual astonishing erudition focuses on three main modes of parallax the ontological difference the ultimate parallax that conditions our very access to reality the scientific parallax the irreducible gap between the phenomenal experience of reality and its scientific explanation which reaches its apogee in today s brain sciences according to which nobody is home in the skull just stacks of brain meat a condition i ek calls the unbearable lightness of being no one and the political parallax the social antagonism that allows for no common ground Between his discussions of these three modes i ek offers interludes that deal with more specific topics including an ethical act in a novel by Henry James and anti anti Semitism *The Parallax View* not only expands i ek s Lacanian Hegelian approach to new domains notably cognitive brain sciences but also provides the systematic exposition of the conceptual framework that underlies his entire work Philosophical and theological analysis detailed readings of literature cinema and music coexist with lively anecdotes and obscene jokes
