common occurrence in the examination Questions are presented in a single best answer and extended matching item format mirroring those that the candidate will encounter during the examination This book is useful for candidates in both the early and late stages of their revision for the examination Early familiarity with the range and depth of topics may help guide further self directed learning Those in the latter stages of revision can use the questions to build confidence and reinforce their knowledge Each chapter is written by an authoritative author alongside the book editor to ensure it is relevant and informative for the reader
