Freemasonry Ancient Egypt And The Islamic Destiny:

Freemasonry, Ancient Egypt and the Islamic Destiny Mustafa ElAmin, 1994 *Freemasonry, Ancient Egypt, and the Islamic Destiny* Mustafa El-Amin, 1988 Mustafa El Amin author of bestseller *Al Islam Christianity and Freemasonry* now examines what it is about Freemasonry that made most of the founding fathers of America feel the need to embrace it why is it that so many people of influence members of Congress the Supreme Court judges politicians past and present have joined and studied the teachings of Freemasonry *History in Black* Yaacov Shavit, 2013-11-12 The development of Afrocentric historical writing is explored in this study which traces this recording of history from the Hellenistic Roman period to the 19th century Afrocentric writers are depicted as searching for the unique primary source of culture from one period to the next Such passing on of cultural traits from the ancient model from the classical period to the origin of culture in Egypt and Africa is shown as being a product purely of creative history **Freemasonry, Greek Philosophy, the Prince Hall Fraternity and the Egyptian (African) World Connection** Keith Moore 32°, 2008-08-29 Freemasonry is a system of learning that has been recognized as a product of western civilization however what is not told is the influences by people of African descent This book describes the contributions to freemasonry from the ancient African civilizations of Egypt Nubia and pre Islamic Arabia It is designed to give the reader a deeper understanding of its origins as well as its connection to world civilizations and world religion all of which has an African presence This book will also look at the universe of African American Masonic organizations from the early 18th century to the 20th century America which ranged from the origins of prince hall freemasonry to Black Nationalist and esoteric religious sects like the Moorish Science Temple of America the UNIA and several other offshoots Contrary to prior accounts African American Freemasonry was concerned with far more than simply acknowledgement and respectability The book will demonstrate that Freemasonry played a critical role in history politics and African American social life I discuss such topics as the impact of Greek philosophy on western civilization the rise of Islam and its impact on the African continent and finally the grandeur and accomplishments of the moors of Spain African people have been at the very core of this rich foundation In addition I discuss the comparisons between the ancient Egyptian civilization and modern day freemasonry I explore its symbolism as well as the esoteric foundations that freemasonry relies so heavily upon Once freemasonry reach the western hemisphere it became a tool for influencing Europe s elite Moreover my research covers the history of the knight s of Europe and the origins of european chivalry and how Arabic poetry played an important role in its establishment Additional topics include Napoleon Bonaparte The mystic shrine and the foundations of Orientalism **Confessions of an Illuminati, Volume III** Leo Lyon Zagami, 2017-05-01 Zagami pushes the boundaries once again with this unique and personal journey into the mysteries of the secretive world of the Dark Cabal In the third book of this acclaimed series Zagami explores a variety of cryptic topics that are always verified with documentation This is not a work of fiction but a tool with which readers can comprehend topics that range from the truth

about the mythical Knights Templars to the Jesuits and their Vatican espionage game Zagami uncovers the most credible candidates of the Grail mystery with proven testimony from an official saint of the Catholic Church Zagami also upholds what he calls conspiracy reality a way to fight back against the system of lies and deceit responsible for the rise of Satanism in the Vatican showing in the process the magical practices of the Illuminati **The Culture Is I-God I & II** Divine39

Allah,2016-12-04 The Five Percent Nation are the Gods He was teaching in the Temple in 1963 and left in June or July He was there for three and one half years 1960 1963 All men lie when they are afraid Some tell many lies some but a few Some have only one great lie they tell so often that they almost come to believe it though some small part of them will always know that it is a lie and that will show up on their many faces *African American Military, Mason, and Muslim* Dr. M. Shaheed Aadam,2025-01-28 This is not only a story of my life but it details the history that I came across I wanted to let people know that my beginnings were quite rocky but I began to question religion at an early age I want people to know my fascination with the US Navy and the rest of the military This book will answer quite a few questions people have had about so called African Americans and what really makes us tick in so many words or less Though I can't speak for all Black folks I can say what I know and not what I've heard **Moorish Circle 7** Keith Moore 32,2005-05-04 This book is based on the theory that the black Muslim movement was created from the knowledge of the Masonic order In the early decades of the 20th century noble drew ali established a political and religious organization known today as the Moorish Science Temple of America It was this organization that exposed black to something other than the normal Christian influences of that day Ali a high degree freemason incorporated various Masonic teachings from an auxiliary group Known as the AEAONMS ancient Egyptian Arabic order of noble of the mystic shrine A pseudo Islamic Arabic oriental organization that served as a wake up call to a lost knowledge A knowledge that was taken away from Africans during the slave trades The theory behind this book is that the majority of the slaves that were taken from the west coast of Africa were practicing Muslims and these Muslims were forced to convert to Christianity under the strong oppression of slavery At one time Afro Americans were the biggest minority in the American society About 90% of the today's population of blacks are descendants of slaves that were brought to America for working on plantations since the 16th century At the beginning of the 19th century most of the so called Negroes lived in the plantation areas of the Southern States After the Civil War and the abolition of slavery it wasn't until the early 1920s and 30s that blacks were beginning to experiment with other faiths Of all the faiths Islam became the fastest growing religion and the most popular This book by far is in no way a research into black history instead it covers a more deeper aspect of history in which I call the history behind the history It explores the true Asiatic origins of the ancient religions of Hinduism Buddhism well as the Islamic faith Finally It explores the Masonic symbolisms of alis Moorish science dogma digging deeper into the esoteric side of his Aquarian Masonic teaching explaining their origins and discovering an age old wisdom that had been kept hidden from the human eye One would think that Africans in the Americas would have rejected

the religious tradition of their European oppressors taking into consideration that African religions are far older they possess more sources of knowledge spiritual salvation Yet there are those who have turned away from traditional Christian dominated environments in order to find a greater understanding of themselves and the world in which they live One alternative has been to seek knowledge in the various religious groups that arose in the 20th century *The Culture Is I-God Book I & II* Divine39 Allah,2016-11-22 It requires only a small book to explain the truth of science history law psychology sociology mathematics etc However it requires a very large book to cover up the truth of science and or history by using Mythology Theology Isms Race and Fiction The Black men women and children continue to be economic and social slaves because of a lack of knowledge of history and science the world over The Great Pyramids of Giza was built by Khufu a great Asiatic builder who sees a Black man of Nile and his family The fallen sons and daughters of the Asiatic Nations need to learn to love instead of hate and to know of their higher self and lower self This is the uniting of the tribes and families for teaching and instructing all families of the planet earth and in the universe Upon The Nature and Significance of the Culture of the Asiatics The Book Culture is I God has for its primary object the construction of a map of the history of the world from an Asiatic Blackman s perspective **Tubal-Cain The Ancient Masonic Blacksmith God** Keith Moore,2018-12-05 The real purpose of this research is the exploration of the Bible and its many African hidden secrets The use of Tubal Cain in Masonic ritual is derived from the old legends of the craft by the operative and then speculative masons it refers symbolically but historically to his scriptural and traditional reputation as an artificer Tubal Cain is the 8th man from Adam In the bible it mentions that Tubal Cain was the first to manipulate metal He is quoted as being the first instructor of brass and iron this Pamphlet will break down and analyze the symbolism behind this sacred password **Ritual America** Craig Heimbichner,Adam Parfrey,2012-03-06 Adam Parfrey is one of the nation s most provocative publishers Seattle Weekly Secret society historian Craig Heimbichner follows the Middle Path to wisdom He works the graveyard shift in the secret lodge Joan d Arc Paranoia magazine Secret societies now a staple of bestseller novels are pictured as sinister cults that use hooded albinos to menace truth seekers Some conspiracy books claim that fraternal orders are the work of serpentine aliens and interbred humans who wish to supplant earth of its energy and later its very existence On the other side of the aisle books by high ranked Freemasons skeptical in tone but no less partisan in approach protect their organization s public image by denying the existence of its most contentious ideas Ritual America reveals the biggest secret of them all that the influence of fraternal brotherhoods on this country is vast fundamental and hidden in plain view In the early twentieth century as many as one third of America belonged to a secret society And though fezzes and tiny car parades are almost a thing of the past the Gnostic beliefs of Masonic orders are now so much a part of the American mind that the surrounding pomp and circumstance has become faintly unnecessary The authors of Ritual America contextualize hundreds of rare and many never before printed images with entertaining and far reaching commentary making an esoteric subject provocative exciting and approachable

Black Muslims and the Law Malachi D. Crawford, 2015-02-05 *Black Muslims and the Law* Civil Liberties From Elijah Muhammad to Muhammad Ali examines the Nation of Islam's quest for civil liberties as what might arguably be called the inaugural and first sustained challenge to the suppression of religious freedom in African American legal history Borrowing insights from A Leon Higginbotham Jr's classic works on American slavery jurisprudence *Black Muslims and the Law* reveals the Nation of Islam's strategic efforts to engage governmental officials from a position of power and suggests the federal executive congressmen judges lawyers law enforcement officials prison administrators state governments and African American civic leaders held a common understanding of what it meant to be and not to be African American and religious in the period between World War II and the Vietnam War The work raises basic questions about the rights of African descended people to define god question white moral authority and critique the moral legitimacy of American war efforts according to their own beliefs and standards *Black Pilgrimage to Islam* Robert Dannin, 2002-03-28 This book offers a comprehensive ethnographic study of African American Muslims Drawing on hundreds of interviews conducted over a period of several years Dannin provides an unprecedented look inside the fascinating and little understood world of black Muslims He discovers that

the well known and cult like Nation of Islam represents only a small part of the picture Many more African Americans are drawn to Islamic orthodoxy with its strict adherence to the Qur an Dannin takes us to the First Cleveland Mosque the oldest continuing Muslim institution in America on to a permanent Muslim village in Buffalo and then inside New York s maximum security prisons to hear testimony of the powerful attraction of Islam for individuals in desperate situations He looks at the aftermath of the assassination of Malcolm X and the ongoing warfare between the Nation of Islam and orthodox Muslims Accessibly written filled with gripping first hand testimony and featuring superb illustrations by photographer Jolie Stahl this book will be the best available guide to the beliefs and culture of African American Muslims Harlemworld John L. Jackson Jr.,2010-05-01 Harlem is one of the most famous neighborhoods in the world a historic symbol of both black cultural achievement and of the rigid boundaries separating the rich from the poor But as this book shows us Harlem is far more culturally and economically diverse than its caricature suggests through extensive fieldwork and interviews John L Jackson reveals a variety of social networks and class stratifications and explores how African Americans interpret and perform different class identities in their everyday behavior **Assassin!** Haha Lung,2004 In this unique and astonishing book Dr Lung not only traces the complete history of the hashishin but explains the rules of Islamic warfare and the true concept of jihad **Metaphysical Africa** Michael Muhammad Knight,2021-11-30 The Ansaru Allah Community also known as the Nubian Islamic Hebrews AAC NIH and later the Nuwaubians is a deeply significant and controversial African American Muslim movement Founded in Brooklyn in the 1960s it spread through the prolific production and dissemination of literature and lecture tapes and became famous for continuously reinventing its belief system In this book Michael Muhammad Knight studies the development of AAC NIH discourse over a period of thirty years tracing a surprising consistency behind a facade of serial reinvention It is popularly believed that the AAC NIH community abandoned Islam for Black Israelite religion UFO religion and Egyptosophy However Knight sees coherence in AAC NIH media explaining how in reality the community taught that the Prophet Muhammad was a Hebrew who adhered to Israelite law Muhammad s heavenly ascension took place on a spaceship and Abraham enlisted the help of a pharaonic regime to genetically engineer pigs as food for white people Against narratives that treat the AAC NIH community as a postmodernist deconstruction of religious categories Knight demonstrates that AAC NIH discourse is most productively framed within a broader African American metaphysical history in which boundaries between traditions remain quite permeable Unexpected and engrossing Metaphysical Africa brings to light points of intersection between communities and traditions often regarded as separate and distinct In doing so it helps move the field of religious studies beyond conventional categories of orthodoxy and heterodoxy challenging assumptions that inform not only the study of this particular religious community but also the field at large Character Counts Michael Glenn Maness,2010-12
