Proceedings of Transpac '84, 1985 **Aeronautical Engineering**, 1991 **Sustainability Leadership** Henrik Henriksson, Elaine Weidman Grunewald, 2020-09-22 As CEOs and business leaders navigate a world of complex global challenges sustainability is no longer optional but a business imperative In this book two sustainability leaders with decades of experience Henrik Henriksson CEO of Scania and Elaine Weidman Grunewald Co founder of the AI Sustainability Center and former Chief Sustainability Public Affairs Officer at Ericsson offer a simple but powerful three step model for leading an organization on a sustainability transformation journey that aims at big audacious world changing goals Honest about the dilemmas but bullish on the opportunities the authors advise leaders on how to accelerate sustainability in their organizations told through a Swedish lens where the country's values and culture permeate the boardroom and the C suite bringing a unique clarity and conviction to leading with integrity In practical insights gleaned from the authors own experience the book takes leaders through the three phases of sustainability leadership from establishing a solid foundation rooted in purpose culture values principles and consistent credible leadership to integrating sustainability into the core business and then to executing a vision that not only shifts the direction of the company but can change an entire industry and even the world Throughout the book more than 25 interviews with other leading CEOs of Swedish companies as well as successful start ups investors economists and other experts illuminate the path to sustainability leadership from different perspectives These are complemented by case studies describing how companies got it right or turned themselves around after getting it very very wrong With this hands on insiders guide CEOs and C suite leaders can take sustainability to the next level This is the encouragement and inspiration business leaders need to move past incremental improvement at a time when exponential world changing action is more urgent than ever Computational Intelligence in Expensive Optimization Problems Yoel Tenne, Chi-Keong Goh, 2010-03-10 In modern science and engineering laboratory experiments are replaced by high fidelity and computationally expensive simulations Using such simulations reduces costs and shortens development times but introduces new challenges to design optimization process Examples of such challenges include limited computational resource for simulation runs complicated response surface of the simulation inputs outputs and etc Under such difficulties classical optimization and analysis methods may perform poorly This motivates the application of computational intelligence methods such as evolutionary algorithms neural networks and fuzzy logic which often perform well in such settings This is the first book to introduce the emerging field of computational intelligence in expensive optimization problems Topics covered include dedicated implementations of evolutionary algorithms neural networks and fuzzy logic reduction of expensive evaluations modelling variable fidelity fitness inheritance frameworks for optimization model management complexity control model selection parallelization of algorithms implementation issues on clusters grids parallel machines incorporation of expert systems and human system interface single and multiobjective algorithms data

mining and statistical analysis analysis of real world cases such as multidisciplinary design optimization The edited book provides both theoretical treatments and real world insights gained by experience all contributed by leading researchers in the respective fields As such it is a comprehensive reference for researchers practitioners and advanced level students interested in both the theory and practice of using computational intelligence for expensive optimization problems **NASA SP.** ,1992 *Chilton's Truck & Off-highway Industries* ,1981 **A Collection of Technical Papers** ,1991 **Anais Do IV Simpósio Internacional Sobre Tecnologia Dos Alcoois Como Combustível** ,1980 Winter Annual Meeting American Society of Mechanical Engineers, *The Commercial Motor* ,1980 **Paper** ,1987 **Federal Register** ,1994-05-05 **Proceedings of the ...
