Transforming Saints Charlene Villaseñor Black, 2022-07-15 Transforming Saints explores

the transformation and function of the images of holy women within wider religious social and political contexts of Old Spain and New Spain from the Spanish conquest to Mexican independence The chapters here examine the rise of the cults of the lactating Madonna St Anne St Librada St Mary Magdalene and the Suffering Virgin Concerned with holy figures presented as feminine archetypes images that came under Inquisition scrutiny as well as with cults suspected of concealing Indigenous influences Charlene Villaseñor Black argues that these images would come to reflect the empowerment and agency of women in viceregal Mexico Her close analysis of the imagery additionally demonstrates artists' innovative responses to Inquisition censorship and the new artistic demands occasioned by conversion The concerns that motivated the twenty-first century protests against Chicana artists Yolanda López in 2001 and Alma López in 2003 have a long history in the Hispanic world in the form of anxieties about the humanization of sacred female bodies and fears of Indigenous influences infiltrating Catholicism In this context Black also examines a number of important artists in depth including El Greco Murillo Josepe de Ribera Pedro de Mena Baltasar de Echave Ibañeta Juan Correa Cristóbal de Villalpando and Miguel Cabrera
