gica La intensa mobilitat social que caracteritza a la nova aristocràcia les seues estratègies i interessos incideixen en aquest procés de consolidació patrimonial de la mateixa forma que ho fan també els privilegis d'exclusió que divideixen a aquestes famílies. Els orígens socials dispars d'aquesta noblesa radicada a la ciutat, els acords i friccions entre nuclis d'autoritat familiar i parents desposseïts de les normes i l'extinció dels llinatges permeten construir dos tipus de genealogia: una identificada amb l'acumulació i una altra supeditada i fins a oblidada. L'aparença del ritual, les xarxes de lleialtat constitueixen pràctiques que juguen a favor de la primera: captiva de la lluita per la propietat.

Blood, Land and Power Manuel Pérez-García, 2021-04-15

The historical data and vast information in the historical sources is arranged in this book using software to make clusters of data and quantification. This serves as illustrative example for future research on how to apply such methods to historical research. The analysis of formation of new elites and powerful families and the social networks they belonged to serves to understand in the long run how groups and families in localities of southern Europe have consolidated their power and how political institutions then and now have served to the perpetuation of such families in the exercise of power. Disputes and rivalry between factions, elites and groups of power to control land as main economic source of power and political institutions have not ceased since the early modern period until today. Southern and Mediterranean Europe localities are a good example in which fierce struggles between elite groups have lasted across space and time.

El origen de la familia, de la propiedad privada y del Estado Friedrich Engels, 1924-01-01

Resumen Animado por las conclusiones a las que el antropólogo Lewis H. Morgan había llegado en sus estudios sobre la evolución de la sociedad primitiva a la sociedad industrializada. Engels decidió escribir esta obra para mostrar la validez de las tesis del materialismo histórico a la hora de explicar las transformaciones sufridas en el tiempo por las distintas sociedades en todo el mundo. Desde las primeras etapas de la historia de la humanidad, los periodos de salvajismo y barbarie hasta la formación de la sociedad de clases basada en la propiedad privada. Engels analiza la evolución de la familia y el matrimonio así como el origen y la naturaleza del Estado poniendo el acento en la relevancia que los avatares económicos, las relaciones de poder y el control de los recursos han tenido en todos los procesos.
