The I-16 group designation has been recommended by the International Union of Pure and Applied Chemistry (IUPAC) but is not yet in wide use. In this text we use the standard IUPAC notation for group numbers (1A-8A and 1B-10B). No numbers have been assigned for elements 113-118. In 2011 IUPAC revised the atomic numbers of known elements. The changes are minor and they are not adopted in the present edition of this text.
