General Principles of Commercial Law Heinrich Schulze (Professor.), Roshana Kelbrick, 2015 Commercial Law, Its Principles and Administration Leone Levi (jurist), 1850 *Commercial Law, Its Principles and Administration* Leone Levi, 1852 **Commercial Law, Its Principles and Administration; Or, the Mercantile Law of Great Britain Compared with the Codes and Laws of Commerce of the Mercantile Countries** Leone Levi, 1850 The United States Catalog Mary Burnham, Carol Hurd, 1928 *Law Books Published*, 2001 **The Role of the Domestic Law of the Host State in Determining the Jurisdiction *ratione materiae* of Investment Treaty Tribunals** Reza Eftekhari, 2021-10-05

The Role of the Domestic Law of the Host State in Determining the Jurisdiction *ratione materiae* of Investment Treaty Tribunals

The Partial Revival of the Localisation Theory focuses on the largely unexplored role of the host state law in determining the jurisdiction *ratione materiae* of investment treaty tribunals. Given domestic law's essential role in subject matter jurisdiction issues and in the light of the broader function of host state law and host state courts in contemporary investment treaty law, the author argues that the dormant localisation theory that was raised and defended by developing countries in the 1960s/1970s in the context of foreign investment contract disputes has now been partially revived in the area of the investment treaty law. This is a significant milestone in the ongoing discussions on the reform of the investment treaty dispute settlement regime.

The Doctrine of Odious Debt in International Law Jeff King, 2016-05-26

According to the doctrine of odious debt, loans which are knowingly provided to subjugate or defraud the population of a debtor state are not legally binding against that state under international law. Breaking with widespread scepticism, this groundbreaking book reaffirms the original doctrine through a meticulous and definitive examination of state practice and legal history. It restates the doctrine by introducing a new classification of odious debts and defines odiousness by reference to the current, much more determinate and litigated framework of existing public international law. Acknowledging that much of sovereign debt is now governed by the private law of New York and England, Jeff King explores how odious debts in international law should also be regarded as contrary to public policy in private law. This book is essential reading for practising lawyers, scholars and development and human rights workers.
