City Spatial Structure, Women's Household Work and National Urban Policy Ann R. Markusen, 1979 The Urban Sociology Reader Jan Lin, Christopher Mele, 2013 This reader draws together seminal selections spanning the subfield from the 19th to the 21st centuries Contributions from Simmel Wirth Park Burgess Zukin Sassen Smith and Castells are amongst the 40 selections **Gender and Planning** Susan S. Fainstein, Lisa J. Servon, 2005 To document and analyze the connection between gender and planning the editors of this volume have assembled an interdisciplinary collection of influential essays by leading scholars Contributors point to the ubiquitous single family home which prevents women from sharing tasks or pooling services Similarly they argue that public transportation routes are usually designed for the male worker's commute from home to the central city and do not help the suburban dweller running errands In addition to these practical considerations many contributors offer theoretical perspectives on issues such as planning discourse and the construction of concepts of rationality Radical Political Economy Samuel Bowles, Richard Edwards, 1990 *Gender and Economics* Jane Humphries, 1995 Presents 27 articles dating from 1923 to 1994 on gender differences female labour supply male female wage differences and on the historical significance of women's work **Research & Society**, 1989 **Hollow Promises?** Michael Keith, Alisdair Rogers, 1991 Debating the problems of inner cities this book examines the concept of the inner city examples of decline and renewal and asks whether the inner city is more than a rhetorical device It also looks beyond the political and theoretical notion of the problems to its impact on people's lives *Society and the Single Parent Family* Ruth Siegel, 1986 *European Spatial Research and Policy*, 1996 **Issues in Mental Health Nursing**, 1983

Environment and Behavior II: Alphabetical listing by authors key word index Lenelis Kruse, Volker Schwarz, 1988
Political Women Janet A. Flammang, 1984-08 Political Women examines women's roles in American state and local politics Three major trends in these areas are discussed which suggest that a quiet revolution is taking place in politics at state and local levels The authors develop four provocative themes relating to the role of women in politics their status in relation to political parties the differences in men's and women's politics and the significance of the female electorate Political Women constitutes an important addition to the series and will be of interest to those studying the place of women in modern society political scientists and students of American government and politics *Antipode*, 1990

Gentrification and Urban Change, 1992 Current Perspectives in Social Theory presents essays on the major issues in contemporary theoretical work in sociology providing both a critical overview of the development of major debates and original formulations by specialists working in various fields Emphasis is put upon the presentation of new developments in special areas Intended to cover the discipline as a whole Current Perspectives in Social Theory seeks to maintain a balance between the general and the particular by dividing each volume into two parts the first consisting of field statements by recognized academics in major areas of sociology the second consisting of pieces focused on more detailed theoretical issues

City Politics Dennis R. Judd, Todd Swanstrom, 1998 *City Politics* is a comprehensive text organized around the theme of political economy Using a historical approach to reveal enduring patterns in urban politics the text goes beyond an explanation of government structures and examines the complex interaction between public and private interests Dennis R Judd and Todd Swanstrom have completely updated and reorganized *City Politics* The second edition continues to approach urban politics comparatively and includes a new chapter on urban governance that examines the prospects for urban liberalism conservatism and populism new material on tourism as an economic development strategy the politics of community development and President Clinton's urban policy *Human Behavior and Environment: Public places and spaces* Irwin Altman, 1976

Women as Single Parents Elizabeth Mulroy, 1988 As Michael Harrington's *New American Poverty* alerted readers to that problem so the present collection makes readers aware of the various conditions of single parenting The institutional barriers of courts housing and workplace to the economic well being of the female single parent are explicitly and directly examined Solid recommendations for institutionalizing change on the state and federal levels are made The interdisciplinary expertise of the authors covers the fields of law social work urban planning housing economics and public policy all with solid academic preparation Charts are clear and concise and the language is direct and concrete Choice The single parent family phenomenon is primarily about households headed by single mothers with minor children Some perceive this growing family form as a threat to the values of the traditional nuclear family and often stereotype the mothers and their children as problems all too often dependent on public assistance Others cite an uncaring society that ignores the needs of its more vulnerable members Stereotypes of single women as parents however often significantly misrepresent the reality Indeed the very ignoring of the great range of differences that characterize contemporary single mothers has itself led to a large and harmful body of myths that perpetuate and intensify the single parent's problems This sensitive substantive book provides a needed examination of the realities of single parenthood for women It makes a major contribution toward thoughtful formulation of policies for improving the economic and social well being of single parents and their children Scholars and practitioners in the fields of law social work urban planning housing economics and public policy address and respond to the many problems challenges and barriers that single mothers confront in the courts in labor markets and in housing

Environment and Planning, 1999 International interdisciplinary journal discussing the relations between Society and Space Space is broadly conceived from landscapes of the body to global geographies from cyberspace to old growth forests as metaphorical and material as theoretical construct and empirical fact Covers both practical politics and the abstractions of social theory **The Restless Urban Landscape** Paul L. Knox, 1993 This advanced reference deals with the radical changes that have occurred within cities since the mid 1970s as a result of the interplay of new economic social political and cultural forces associated with the transition to advanced capitalism It brings the cutting edge of debate in urban geography to a single volume expresses important new ideas and theories in an accessible format

addresses recent urban change offers a dynamic approach to urban geography and brings a cross disciplinary approach to urban change providing a big picture context for ideas and theory Suitable for professional geographers and environment and planning specialists **Back Offices and Female Labor Markets** Kris Nelson, 1984
