College Algebra Beecher:

College Algebra Judith A. Beecher, 2013-08-07 Beecher Penna and Bittinger's College Algebra is known for enabling students to see the math through its focus on visualization and early introduction to functions. With the Fourth Edition, the authors continue to innovate by incorporating more ongoing review to help students develop their understanding and study effectively. Mid chapter Mixed Review exercise sets have been added to give students practice in synthesizing the concepts and new Study Guide summaries provide built-in tools to help them prepare for tests. MyMathLab has been expanded so that the online content is even more integrated with the text's approach with the addition of Vocabulary Synthesis and Mid chapter Mixed Review exercises from the text as well as example-based videos created by the authors. **College Algebra with Intermediate Algebra** Judith A. Beecher, Judith A. Penna, Barbara Loreen Johnson, Marvin L. Bittinger, 2017 For courses in Intermediate and College Algebra Intermediate through College Algebra A Streamlined Experience College Algebra with Intermediate Algebra A Blended Course is an innovative new program from the Beecher et al author team. Designed to meet your changing needs in Intermediate Algebra and College Algebra courses, this program eliminates the repetition in topic coverage across the traditional two-course sequence. The result is a streamlined course experience that makes better use of time and resources. The careful arrangement of topics, one building on the next without redundancy, motivates and creates a solid foundation of knowledge. This new streamlined approach to these courses is complemented by the authors' innovative ability to help you see the math through their focus on visualization, early introduction to functions and graphing, and making connections between math concepts and the real world. Also Available with MyMathLab R MyMathLab is an online homework tutorial and assessment program designed to work with this text to engage you and improve results. Within its structured environment, you are able to practice what you learn, test your understanding, and pursue a personalized study plan that helps you absorb course material and understand difficult concepts. With this edition, the authors focused on developing MyMathLab features that help you prepare better and get you thinking more visually and conceptually. Note: You are purchasing a standalone product; MyMathLab does not come packaged with this content. Students interested in purchasing this title with MyMathLab should ask their instructor for the correct package. College Algebra Judith A. Beecher, Judith A. Penna, Marvin L. Bittinger, 2004-02 The BPB team has created a book where the use of the graphing calculator is optional, but visualizing the mathematics is not. By creating algebraic visual side-by-sides to solve various problems in the examples, the authors show students the relationship of the algebraic solution with the visual, often graphical, solution. In addition to helping students visualize the math with side-by-sides, the authors focus on helping students make the connection between x -intercepts, zeros, and solutions, both visually and algebraically.
