Military Laser Technology for Defense Alastair D. McAulay, 2011-04-20 Recent advances in ultra high power lasers including the free electron laser and impressive airborne demonstrations of laser weapons systems such as the airborne laser have shown the enormous potential of laser technology to revolutionize 21st century warfare Military Laser Technology for Defense includes only unclassified or declassified information The book focuses on military applications that involve propagation of light through the atmosphere and provides basic relevant background technology It describes high power lasers and masers including the free electron laser Further Military Laser Technology for Defense addresses how laser technology can effectively mitigate six of the most pressing military threats of the 21st century attack by missiles terrorists chemical and biological weapons as well as difficulty in imaging in bad weather and threats from directed beam weapons and future nuclear weapons The author believes that laser technology will revolutionize warfare in the 21st century **Defense Conversion Strategies** Robert E. Dundervill, Jr., Peter F. Gerity, Anthony K. Hyder, Lawrence H. Luessen, 2013-03-09 A North Atlantic Treaty Organization NATO Advanced Studies Institute ASI on Defense Conversion Strategies was held at the Atholl Palace Hotel Pitlochry Perthshire Scotland from July 2 through July 14 1995 This publication is the proceedings of the Institute The NATO Advanced Studies Institute program of the NATO Science Committee is a unique and valuable forum under whose auspices over one thousand international tutorial meetings have been held since the inception of the program in 1959 The ASI is intended to be primarily a high level teaching activity at which a carefully defined subject is presented in a systematic and coherently structured program The subject is treated in considerable depth by lecturers eminent in their fields and of international standing The subject is presented to other experts or practitioners who will already have specialized in the field or possess an advanced general background appropriate to the topic The ASI is aimed at an audience at the post doctoral level This does not exclude advanced graduate students or other senior participants with qualifications and achievements in the subject of the ASI or related areas This ASI was prompted by several events in the defense environment *War Transformed* Mick Ryan, 2022-02-15 War Transformed The Future of Twenty First Century Great Power Competition and Conflict provides insights for those involved in the design of military strategy and the forces that must execute that strategy Emphasizing the impacts of technology new era strategic competition demography and climate change Mick Ryan uses historical as well as contemporary anecdotes throughout the book to highlight key challenges faced by nations in a new era of great power rivalry Just as previous industrial revolutions have advanced societies the nascent fourth industrial revolution will have a similar impact on how humans fight compete and build military power in the twenty first century After reviewing the principle catalysts of change in the security environment War Transformed seeks to provide a preview of the shape of war and competition in the twenty first century Ryan examines both the shifting character of war and its enduring nature In doing so he proposes important trends in warfare that will shape all aspects of human competition and

conflict in the coming decades The remainder of the book analyzes how military institutions must prepare for future competition and conflict Competing and engaging in combat in this new era involves new and evolved strategies and warfighting concepts as well as adapting our current military organizations It will also demand building an intellectual edge in military personnel through evolved concepts of training education and development As the competitive environment and potential battlefields continue to change conceptions of combat competition and conflict must also evolve Mick Ryan makes the case for transforming how Western military institutions view war in this century **Department of Defense**
