Humboldt Sexton, 2016-08-30 Excerpt from Fuel and Refractory Materials IT has not been felt necessary to make any alteration in the scope or general arrangement of the book but since the first edition was published there have been changes and developments in many directions especially in connection with coke ovens gas producers and pyrometry Considerable additions have therefore been made in the chapters dealing with these subjects The

modern forms of plant and apparatus are now described Some descriptions of older types of plant have been deleted and the whole book has been carefully revised In spite of the progress which is being made in the adoption of the metric system in this country it is unfortunately still necessary to use the British system of weights and measures These have therefore been retained The author hopes that the changes made will add to the Usefulness of the book About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
