Restructuring Activities Donald DePamphilis, 2015-07-28 Mergers Acquisitions and Other Restructuring Activities is unique in that it is the most current comprehensive and cutting edge text on M A and corporate restructuring available. It is current in that it includes many of the most up to date and notable deals e.g. Facebook's takeover of WhatsApp, the Dell privatization and Verizon's mega buyout of Vodafone's share of Verizon Wireless, precedent setting judicial decisions e.g. efforts to overturn defenses at Airgas and Sotheby's new regulations e.g. expediting backend mergers, trends e.g. increasing role of activist investors in takeovers and new tactics e.g. two tiered poison pill employed in M As. Most integrative case studies are new for this edition and involve transactions that have been announced or completed since 2013. It is comprehensive in that nearly all aspects of M As and corporate restructuring are explored. It is cutting edge in that conclusions and insights are anchored by the most recent academic research with references to more than 200 empirical studies published in leading peer reviewed journals just since 2012. And the substantially updated content is illustrated with numerous practical exhibits, case studies involving diverse transactions, easy to understand numerical examples and hundreds of discussion questions and practice exercises. The highlights of the new edition are listed here.

New Chapters Two new chapters, Chapter 9 and 14. Chapter 9 discusses the basics of applying financial modeling methods to firm valuation and assists the reader in understanding the power and limitations of models in analyzing real world situation. Chapter 14 illustrates how complex financial models often are used to support the deal structuring process during M A negotiations.

New Cases Ninety percent of the nearly forty case studies are new and involve transactions announced or completed during the last three years. These cases represent friendly, hostile, highly leveraged and cross border deals in ten different industries involving public and private firms as well as firms experiencing financial distress. All end of chapter case studies begin with a Key Objectives section indicating what the student should learn from the case study and include discussion questions and solutions available in the online instructors manual.

Latest Research This edition focuses on the most recent and relevant academic studies, some of which contain surprising insights changing the way we view this subject matter. Recent research has significant implications for academicians, students, M A practitioners and government policy makers, shedding new light on current developments and trends in the ever changing mergers and acquisitions market. The market for corporate control and corporate restructuring strategies are constantly changing, reflecting the ongoing globalization of both product and capital markets, accelerating technological change, escalating industry consolidation, changing regulatory practices and intensifying cross border competition. While continuing to be relevant, empirical research covering the dynamics of the M A markets of the 1970s, 1980s and 1990s may be less germane in explaining current undercurrents and future trends.

Survey Research in Corporate Finance H. Kent Baker, J. Clay Singleton, E. Theodore Veit, 2011-01-19 As there is no current book that deals extensively or exclusively with survey research in corporate finance *Survey Research in Corporate Finance* is the only one of its kind For even while there are numerous books on survey methodology none focus on this methodology as specifically applied to corporate finance In the book Baker Singleton and Veit do nothing less than provide an overview of survey methodology useful to financial researchers synthesize the major streams or clusters of survey research in corporate finance and offer a valuable resource and guide for those interested in conducting survey research in finance Thus this volume will be an essential reference for practitioners academics and graduate students who all must know the methodology of finance survey research In addition to methodology the book identifies areas that will be best served by survey based research Researchers will have a wealth of information regarding past surveys and will be aware of suitable candidates for future surveys Several chapters are devoted to synthesizing survey results on major issues in finance These will help decision makers in finance and in non finance firms to acquire knowledge learned from years of communications between academics and practitioners

Business Valuation and Taxes David Laro, Shannon P. Pratt, 2005-04-08 Disputes over valuation issues fill the court s dockets and for good reason fair market valuations are required frequently by the law The authors believe that approximately 243 sections of the Code and several thousand references in the Regulations explicitly require fair market value determination Consequently taxpayers file an estimated 15 million tax returns each year reporting an event involving a valuation related issue It is no mystery therefore why valuation cases are ubiquitous Today valuation is an important and highly sophisticated process Valuators need legitimate guidance to perform their work The objective of this book is to provide knowledge and guidance to those who do the valuations as well as those who are affected by them This unprecedented text provides Clear guidance and perspective on business valuation from two of the nation s top authorities Hon David Laro and Dr Shannon Pratt Insightful perspective and discussion on critical issues procedures and law pertaining to business valuation An overview of business valuation procedures Law and techniques of Fair Market Value Opinion from the Hon David Laro and Dr Shannon Pratt who express their unique and critical views The business valuer with everything from the basics to the sophisticated From definitions to valuing complex business interests what you need to know about business valuation Everything from empirical market evidence to credible expert business valuation testimony discussed and analyzed by the Hon David Laro and Dr Shannon Pratt
