The Kenotic Organization Brian E. Ruffner, 2023-01-25 Although organizations frequently proclaim the desire for change renewal and transformation few ever fully embrace those ideas failing to rise above more than mere mediocrity and never realizing even a fraction of their true potential Certainly many pontificate on the nature of organizations as they live and breathe so to speak yet few question how the organization ought to be This ought belies the existential and ethical dimensions of organizing and as such points to a discipline not often associated with the organizational realm theology To this end the concept of the kenotic organization offers a much needed antidote to the syndrome described above Drawing on the divine Trinitarian kenosis observed in the creation event and witnessed in the Incarnation the simultaneous actions of self-limiting and pouring out inform the organizational cause and expose a deeply entangled organizational mesh enveloping the entire cosmos which can serve as a catalyst to excite preferred organizational behaviors It is in fact the humility of Trinitarian kenosis the willingness to withdraw but also at once pour out the individual essence that generates the thrust necessary to escape the gravitational pull of convention which typically inhibits organizational flourishing

the Army, 2019-10-09 ADP 6-22 describes enduring concepts of leadership through the core competencies and attributes required of leaders of all cohorts and all organizations regardless of mission or setting. These principles reflect decades of experience and validated scientific knowledge. An ideal Army leader serves as a role model through strong intellect, physical presence, professional competence, and moral character. An Army leader is able and willing to act decisively within superior leaders' intent and purpose and in the organization's best interests. Army leaders recognize that organizations built on mutual trust and confidence accomplish missions. Every member of the Army, military or civilian, is part of a team and functions in the role of leader and subordinate. Being a good subordinate is part of being an effective leader. Leaders do not just lead subordinates; they also lead other leaders. Leaders are not limited to just those designated by position, rank, or authority.

Leadership and the Unmasking of Authenticity Brent Edwin Cusher, Mark A. Menaldo, 2018. Leadership and the Unmasking of Authenticity presents a philosophic treatment of the core concept of authentic leadership theory with a view toward illuminating how authors in the history of philosophy have understood authenticity as an ideal for humanity. Such an approach requires a broader view of the historical origins of authenticity and the examination of related ideas such as self-knowledge and deception. The chapters of this book illuminate the conflict between the contemporary understanding of authenticity and traditional philosophy by revisiting the ideas of thinkers who express self-knowledge as a cornerstone of their philosophy. **Leadership in Organizations, Global Edition**
