Saved By The Light True Story Of A Man Who Died Twice And Profound Revelations He Received Dannion Brinkley:

Saved by the Light Dannion Brinkley, Paul Perry, 1994 Dannion Brinkley was struck by lightning and was clinically dead. On leaving his body he visited a spiritual realm where he was told of events that would shake the world some have already happened. During a second near death experience he was told to use his gifts to help the dying. *The Borders of Normal* Manuel Matas, M.D., 2017-08-10 DREAMS THAT COME TRUE TELEPATHY ESP VISIONS PREMONITIONS NEAR DEATH AND OUT OF BODY EXPERIENCES Most of us have heard stories of these unusual phenomena as told by millions of people throughout history and across cultures. Or perhaps we have experienced them ourselves and we are still grappling with their validity in a world of empirical science and psychiatry that deems anything unseen or spiritual as impossible, weird or even disturbed. The stigma surrounding the paranormal prevents us from exploring the possibility that there are perhaps events that occur outside the realm of human comprehension inoculating us against the lessons and spiritual significance these events might hold. As an experienced psychiatrist Dr Manuel Matas is very familiar with the science of the human brain as well as the possibilities that exist beyond the known borders of consciousness. He has never been a classic rationalist as he himself has experienced phenomena that defy logic and the explanations of Western medicine. In *The Borders of Normal* Dr Matas reveals just how accepted and studied many of these phenomena are providing a compelling overview of influential thinkers who have over the years recognized events and experiences that fall outside the realm of current scientific thought. As a proponent of a nuanced respectful approach that lies between belief and scepticism Dr Matas helps us to view paranormal experiences as normal and indeed endemic to the human species for it is in this space of the unknown that we may learn more about ourselves, each other and the bodies and worlds that we inhabit. *Beyond 2012: Catastrophe or Awakening?* Geoff Stray, 2009-05-21 An illustrated encyclopedic overview of the prophecies, calendars and theories that indicate the year 2012 is a threshold of great change for humanity. Looks at the scientific and anthropological evidence for the rare galactic alignment due to occur in December 2012. Sifts through the catastrophic theories to show what we might really expect in 2012. In December of 2012 the Mayan Calendar's Great Cycle will come to an end. Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed. What is certain however is that a rare galactic alignment will occur, one so unique that it is found at the core of many wisdom traditions from around the globe. Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982. Far from confining his research to the Maya who provide the most prominent predictions indicating this date will herald significant changes for humanity, he has studied the prophetic traditions of other cultures including the Tibetan, Chinese, Jewish, Ethiopian and tribal cultures from around the globe to show the kind of convergence of cosmic purposes happening along a number of parallel tracks. This book offers an extensive study of many

modern theories including Terence McKenna's timewave zero and Maurice Cotterell's sunspot research as well as anomalous phenomena such as near death experiences and crop circles Sifting through all the scientific research and speculation that the year 2012 has inspired Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date

God and the Folly of Faith Victor J. Stenger, 2012 Looking at both historical and contemporary contexts the author argues that religion has played a major role in suppressing scientific pursuit *A Traveler's Guide to the Afterlife* Mark Mirabello, 2016-09-15 A grand survey of the world's death and afterlife traditions throughout history Examines beliefs from many different cultures on the soul heaven hell and reincarnation instructions for accessing the different worlds of the afterlife how one may become a god and how ethics and the afterlife may not be connected Explores techniques to communicate with the dead including's ance instructions Includes an extensive bibliography of more than 900 sources from around the world Drawing on death and afterlife traditions from cultures around the world Mark Mirabello explores the many forms of existence beyond death and each tradition's instructions to access the afterlife He examines beliefs on the soul heaven hell and reincarnation and wisdom from Books of the Dead such as the Book of Going Forth by Day from Egypt the Katha Upanishad from India the Bardo Thodol from Tibet the Golden Orphic Tablets from Greece Lieh Tzu from China and Heaven and its Wonders and Hell from Things Heard and Seen from 18th century Europe Considering the question What is Death Mirabello provides answers from a wide range of ancient and modern thinkers including scientist Nicholas Maxwell the seer Emanuel Swedenborg 1st century Buddhist philosopher Nagarjuna and Greek philosopher Euripides who opined that we may already be dead and only dreaming we are alive He explores the trek of the soul through life and death with firsthand accounts of the death journey and notes that what is perceived as death here may actually be life somewhere else He reveals how in many traditions ethics and the afterlife are not connected and how an afterlife is possible even without a god or a soul Sharing evidence that consciousness is not simply a product of the brain he offers a strong rebuttal to nihilists materialists and the Lokayata philosophical school of India who believe in the finality of death He explains how specters and ghosts are produced and offers techniques to communicate with the dead as well as instructions for an out of body experience and the complete procedure for a's ance With an extensive bibliography of more than 900 sources this guide offers comprehensive information on afterlife beliefs from the vast majority of cultures around the world and throughout history a veritable traveler's guide to the afterlife **Quantum Science of Psychedelics** Carl Johan Calleman, 2020-03-10 A groundbreaking exploration of how psychedelics and quantum science are vital to understanding the evolution of consciousness and reality Explains why altered states of consciousness exist how they work and why psychedelics have the effects that they do Describes how quantum waves rather than the DNA molecule have been the driving force behind biological and historical evolution Explains how psychedelics interact with the human mind to create altered states that may further the continued evolution of consciousness In this groundbreaking book Carl Johan Calleman reveals the quantum

science of the Maya a science lost to the modern world that explains the phenomenology of psychedelics and altered states of consciousness The ancient Maya had a sophisticated understanding of the multidimensional nature of reality and the forces that drive the evolution of consciousness Calleman explains how quantum waves illustrated by the Mayan Calendar emanate from the center of the universe and activate new phases in the evolution of consciousness through holographic resonance which alters the dualities of the human mind For example the 5th Wave which dominated in Paleolithic times and evolved human consciousness above that of animals brought a chaotic floating state reminiscent of the psychedelic or shamanic state and the recent 8th Wave brought the digital revolution The 9th Wave which began in 2011 offers the potential for individual development of higher consciousness and healing if we can synchronize ourselves with its positive holograms This multidimensional perspective explains why altered states of consciousness exist and how they work Calleman describes the role of the pineal gland for the human mind how it controls our state of consciousness and how it can connect us to the cosmic Tree of Life He shows that the mind is a reducing valve that normally limits our experience of cosmic consciousness but that this can be reversed through altered states As Calleman concludes psychedelics like ayahuasca and DMT not only give rise to extraordinary mystical and cosmic experiences and enable access to healing states but they also are important for harmoniously synchronizing humanity with the 9th Wave to further the evolution of consciousness **Saved by the Light**
