Notorious Secret Societies James S Pollock,2017-03-02 Want to learn the secrets of secret societies Have you or a family member been trapped in a secret society Are secret societies really dangerous or just a group of like minded people trying to accomplish something important for the betterment of the world In this book *Notorious Secret Societies* you ll everything you want and need to know Things aren t always what they seem to be Looks can be deceiving and just because you don t see something doesn t mean it doesn t exist Take for example the air we breathe If seeing is believing then it means oxygen as we know it doesn t exist But it does exist and the fact that we re alive is living proof of such Or how about carbon monoxide It s not something that we can see but many people all over the world are killed by it Because they don t see it they unknowingly breathe it and fall victim to its poisonous power Secrecy can be a lethal weapon And so it is with The Worlds Most Notorious Secret Societies Their power and ability to do what they want is highly contingent on being able to keep their supposed secret agendas secret The day they re purported sinister agendas get exposed is the day they fail to achieve their grand agendas That s why more than ever it s important to know who these secret societies are and the reason why they re very controversial In this book you ll discover secrets from some of the world s most notorious secret societies The Free and Accepted Masons Freemasons The Order of the Illuminati The Knights Templar The Bilderberg Group The Order of the Skulls and Bones The Society of Jesus Jesuits The Church of Scientology *Secret Societies* University Press,2020-06-25 University Press returns with another short and captivating book a brief history of secret societies Secret societies have intrigued inquisitive minds for thousands of years These shadowy cryptic mythological organizations have survived spawned legends and inspired elaborate conspiracy theories From the Illuminati to the Knights Templar to Skull and Bones to the Freemasons

to the Mafia to the Yakuza these exclusive syndicates have been shrouded in mystery sustained by powerful elites and embellished by gifted storytellers This short book peels back the veil and provides an astonishing glimpse into the inner workings of the most spine tingling secret societies in history a glimpse that you can read in about an hour *Shadow People* John Lawrence Reynolds, 2006 Roving from the parched wadis of the Middle East to an isolated farmhouse in rural Quebec to the crowded boutiques of Beverly Hills master storyteller and award winning writer John Lawrence Reynolds explores the most notorious secret societies in history probing their origins and activities and revealing secrets maintained and distorted over hundred of years Reynolds peels away the layers of speculation paranoia and fear and shines a brilliant light on individuals and organizations that have generated suspicion and terror over several centuries He treats the reader to a behind the scenes look at rituals and initiations artifacts and secret signs influences and dangers And in the telling he uncovers a rogue s gallery of assassins con artists thieves racists drug smugglers adulterers pranksters and crooks But where does the truth lie Does global power actually control the election of world leaders Has an ancient mystical religion really been reduced to a length of red string selling for a dollar an inch Are some secret societies little more than a group of boys playing at secret handshakes From the Assassins to the Yakuza from Freemasons to Bonesmen shadow people and their secrets have flourished throughout history Some fear them some dismiss them but everyone is fascinated by them **Secret Societies of America's Elite** Steven Sora, 2003-02-24 An expose of the dark and critical role secret societies play within the ruling families in America and their influence on American democracy current events and world history Reveals the enormous influence secret societies still have on contemporary American life Shows how the secret Masonic cells that smuggled in the democratic ideals inspiring the American Revolution also enabled the future elite of the new society to build huge fortunes Elite and secret societies have always been a major force in the history of Western civilization The alliances formed in secret societies such as the Knights Templar the Knights of Christ and the Freemasons transcended patriotism and religious beliefs and had a powerful influence on the establishment of the United States of America While these secret associations of merchants smugglers occultists gamblers spies and slavers succeeded in freeing the United States from foreign domination the dark side is that the elite used their secret connections to further their own wealth and power These secret cells did not hesitate to sponsor the assassination of a president and even attempted to break up the union on several occasions when it was deemed expedient From the Sons of Liberty and the Essex Junto to the Ku Klux Klan secret societies have played critical roles in building the fortunes of America s elite Now Steven Sora reveals in alarming detail how secretive societies continue to wield power even today as organizations such as Yale s Skull Bones unite America s modern ruling families as strongly as Masonic Lodges once connected the Astors Livingstons and Roosevelts Their immense power and wealth allow this elite to control America to an even greater degree than the Templars once dominated Europe *Skull and Bones: The History and*

Mystery of Yale University's Notorious Secret Society (The Illuminati, Freemasons, Bilderberg Group, Knights Templar, The Jesuits, Skull And Bones And Others) Richard Scott, 101-01-01 Nobody likes the idea that there are hugely influential powers operating behind closed doors For centuries there have been stories about secret societies that control everything we do and dominate the highest echelons of politics and business Whether it s the Illuminati the Masons or the Knights Templar it s not uncommon for people to believe that there might be a cabal of people who conspire together for their own nefarious purposes But while these earlier societies might be clouded in mystery and intrigue there are modern equivalents of which we know much much more In this book you will learn The freemasons The illuminati Skull and bones The bilderberg group Council on foreign relations The trilateral commission The society of jesuits The committee of 300 The knights templar And much much more In this book we will examine their history their practices their members and their legacy By the end you should have a much clearer idea of what it means to be a member of one of Yale s most exclusive groups Skull and Bones Scroll back up and click the BUY NOW button at the top right side of this page for an immediate download *Secret Societies* Milton William Cooper, 2013-09-20 History is replete with whispers of secret societies Accounts of elders or priests who guarded the forbidden knowledge of ancient peoples Prominent men meeting in secret who directed the course of civilization are recorded in the writings of all people The oldest is the Brotherhood of the Snake also called the Brotherhood of the Dragon and it still exists under many different names It is clear that religion has always played a significant role in the course of these organizations Communication with a higher source often divine is a familiar claim in all but a few The secrets of these groups are thought to be so profound that only a chosen well educated few are able to understand and use them These men use their special knowledge for the benefit of all mankind At least that is what they claim How are we to know since their knowledge and actions have been secret Fortunately some of it has become public knowledge I found it intriguing that in most if not all primitive tribal societies all of the adults are members They are usually separated into male and female groups The male usually dominates the culture Surprisingly this exactly resembles many civilized secret societies This can only mean that the society is working not against established authority but for it In fact could be said to actually be the established authority This would tend to remove the validity of any argument that all secret associations are dedicated to the destruction of properly constituted authority This can only apply of course where the secret society makes up the majority or entirety of any people which it affects Only a very few fall into this category Secret societies in fact mirror many facets of ordinary life There is always an exclusivity of membership with the resultant importance attached to being or becoming a member This is found in all human endeavors even those which are not secret such as football teams or country clubs This exclusivity of membership is actually one of the secret societies most powerful weapons There is the use of signs passwords and other tools These have always performed valuable functions in man s organizations everywhere The stated reason almost always different from the real reason for the societies existence is important [LIFE Secret Societies](#) LIFE

different approach Where did the Freemasons come from Here we will examine the links between the Freemasons and another of history s most famous organizations the Knights Templar Could the Templars have laid the foundations of the Freemasons Did they set up the secret society to extract revenge for their demise Did they inspire an English rebellion simply to destroy their enemies Over the course of many centuries we will try to find the evidence that demonstrates the links between these two organizations Simply because they are so very secret people are liable to project their beliefs onto the hidden group But in this book we will try and focus on the facts Sometimes these facts can be far more shocking than the theories Read on and discover the secret truths of the ancient Freemasons Scroll back up and order your copy today
