Food Science and Technology International Series 

Sensory Evaluation Practices 4th Edition

Henry A. McGee

Sensory Evaluation Practices 4th Edition:

Sensory Evaluation Practices Herbert Stone, 2012-12-02 Sensory Evaluation Practices examines the principles and practices of sensory evaluation. It describes methods and procedures for the analysis of results from sensory tests, explains the reasons for selecting a particular procedure or test method, and discusses the organization and operation of a testing program, the design of a test facility, and the interpretation of results. Comprised of three parts encompassing nine chapters, this volume begins with an overview of sensory evaluation: what it does, how, where, and for whom, and its origin in physiology and psychology. It then discusses measurement, psychological errors in testing, statistics, test strategy, and experimental design. The reader is also introduced to the discrimination, descriptive, and affective methods of testing, along with the criteria used to select a specific method, procedures for data analysis, and the communication of actionable results. The book concludes by looking at problems where sensory evaluation is applicable, including correlation of instrumental and sensory data, measurement of perceived efficacy, storage testing, and product optimization. This book is a valuable resource for sensory professionals, product development and production specialists, research directors, technical managers, and professionals involved in marketing, marketing research, and advertising.

Sensory Evaluation Practices Herbert Stone, Rebecca N. Bleibaum, Heather A. Thomas, 2020-10-18 Sensory Evaluation Practices Fifth Edition presents the latest developments and methods of sensory evaluation, including those on the front end of innovation, consumer acceptance, preference, multivariate statistical analysis, discrimination testing, descriptive analysis, sensory claims substantiation for advertising, and information management. Additionally, related social psychological methods such as laddering, design thinking, emotional profiling, and applications of qualitative and consumer co-creation and immersive techniques are explored. This book will be an ideal reference for sensory professionals, technical managers, product specialists, and research directors in the food, beverage, cosmetics, and other consumer products industries of all sizes. Emphasizes the importance of scientific sensory methodology used to measure and understand consumer perception. Illustrates the importance of planning, managing, and communicating product sensory information in a way that is actionable to developers, marketers, and legal counsel. Presents how sensory science is becoming more influential at the front end of innovation. Discusses measurement, the design of experiments, and how to understand key sensory drivers that most influence consumers. Explores the global nature of products and how companies can benefit by having fundamental training programs in sensory and consumer science. Contains demonstrated methods for test selection, application, and measurement, and testing with the right consumer, including more typical usage environments. Includes worked examples for interpreting and displaying results. Features a new chapter on how to get your research published.

Sensory Evaluation Techniques, Fourth Edition Morten C. Meilgaard, B. Thomas Carr, Gail Vance Cville, 2006-12-13 From listing the steps involved in a sensory evaluation project to presenting advanced statistical methods, Sensory Evaluation Techniques Fourth Edition covers all phases of sensory evaluation. Like its bestselling predecessors, this

edition continues to detail all sensory tests currently in use to promote the effective employment of these tests and to describe major sensory evaluation practices The expert authors have updated and added many areas in this informative guide New to this edition are expanded chapters on qualitative and quantitative consumer research and the Spectrum™ method of descriptive sensory analysis that now contains full descriptive lexicons for numerous products such as cheese mayonnaise spaghetti sauce white bread cookies and toothpaste Also new in this chapter is a set of revised flavor intensity scales for crispness juiciness and some common aromatics The book now includes an overview of Thurstonian scaling that examines the decision processes employed by assessors during their evaluations of products Another addition is a detailed discussion of data relationship techniques which link data from diverse sources that are collected on the same set of examples With numerous examples and sample tests Sensory Evaluation Techniques Fourth Edition remains an essential resource that illustrates the development of sensory perception testing Sensory Evaluation of Sound Nick Zacharov,2018-12-07

Sensory Evaluation of Sound provides a detailed review of the latest sensory evaluation techniques specifically applied to the evaluation of sound and audio This three part book commences with an introduction to the fundamental role of sound and hearing which is followed by an overview of sensory evaluation methods and associated univariate and multivariate statistical analysis techniques The final part of the book provides several chapters with concrete real world applications of sensory evaluation ranging from telecommunications hearing aids design and binaural sound via the latest research in concert hall acoustics through to audio visual interaction Aimed at the engineer researcher university student or manager the book gives insight into the advanced methods for the sensory evaluation with many application examples Introduces the fundamental of hearing and the value of sound Provides a firm theoretical basis for advanced techniques in sensory evaluation of sound that are then illustrated with concrete examples from university research through to industrial product development Includes chapters on sensory evaluation practices and methods as well as univariate and multivariate statistical analysis Six application chapters covering a wide range of concrete sensory evaluation study examples including insight into audio visual assessment Includes data analysis with several associated downloadable datasets Provides extensive references to the existing research literature text books and standards Sensory Evaluation Practices Herbert Stone,Joel L.

Sidel,1993-01-01 Introduction to sensory evaluation The organization and operation of a sensory evaluation program Measurement Test strategy and design of experiments Discrimination testing Descriptive analysis Affective testing Special problems Epilogue **Global Cheesemaking Technology** Photis Papademas,Thomas Bintsis,2017-09-26 Global Cheesemaking Technology Cheese Quality and Characteristics reviews cheesemaking practices and describes cheeses and the processes from which they are manufactured In addition the book examines new areas to stimulate further research in addition to the already established knowledge on the scientific principles on cheesemaking Part I provides an account on the history of cheese factors influencing the physicochemical properties flavour development and sensory characteristics

microbial ecology and cheese safety traceability and authentication of cheeses with protected labels and traditional wooden equipment used for cheesemaking while an overview of the cheesemaking process is also presented Part II describes 100 global cheeses from 17 countries divided into 13 categories The cheeses described are well known types produced in large quantities worldwide together with some important locally produced in order to stimulate scientific interest in these cheese varieties Each category is presented in a separate chapter with relevant research on each cheese and extensive referencing to facilitate further reading

Bitterness Michel Aliani, Michael N. A. Eskin, 2017-04-17 The increasing demand for healthy foods has resulted in the food industry developing functional foods with health promoting and or disease preventing properties However many of these products bring new challenges While drugs are taken for their efficacy functional foods need to have tastes that are acceptable to consumers Bitterness associated with the functional foods is one of the major challenges encountered by food industry today and will remain so in years to come This important book offers a thorough understanding of bitterness the food ingredients that cause it and its accurate measurement The authors provide a thorough review of bitterness that includes an understanding of the genetics of bitterness perception and the molecular basis for individual differences in bitterness perception This is followed by a detailed review of the chemical structure of bitter compounds in foods where bitterness may be considered to be a positive or negative attribute To better understand bitterness in foods separation and analytical techniques used to identify and characterize bitter compounds are also covered Food processing can itself generate compounds that are bitter such as the Maillard reaction and lipid oxidation related products Since bitterness is considered a negative attribute in many foods the methods being used to remove and mask it are also thoroughly discussed

Culinology Research Chefs Association, 2016-02-29 Culinology The Intersection of Culinary Art and Food Science will demonstrate how the disciplines of culinary arts and food science work hand in hand in the research and development of new manufactured food products for the commercial retail and foodservice industries It will be the authoritative source that will add value and relevance to this growing discipline and its practitioners Integrating culinary arts with food science and technology this book provides the best strategy for developing successful food products on a large scale Real world applications and business models ground the book and clearly illustrate how the concepts and theories work in business and industry

Practical Taste-and-odor Methods of Routine Operations Andrea M. Dietrich, 2004 This report tested 3 new sensory methods developed using food beverage industry product evaluations The three are Attribute Rating Test to monitor musty odor caused by geosmin Rating Method for Evaluating Distribution System Odors in Comparison to a Control and 2 of 5 Odor Test a forced choice method All are simple yet reliable taste and odor evaluation methods that can be used for day to day monitoring and can replace or work along side existing FPA and TON tests
