When did parenting become a verb? Why is it so hard to parent and so rife with the possibility of failure? Sitcom families of the past: the Cleavers, the Bradys, the Conners didn't seem to lose any sleep about their parenting methods. Today parents are likely to be up late doomscrolling on parenting websites. In *Long Days Short Years* Andrew Bomback, physician, writer, and father of three young children, looks at why it can be so much fun to be a parent but at the same time so frustrating and difficult to parent. It's not a how-to book, although Bomback has read plenty of these but a how-come book investigating the emergence of an immersive all-in approach to raising children that has made parenting a competitive and often not very enjoyable sport. Drawing on parenting books, mommy blogs, and historical accounts of parental duties as well as novels, films, podcasts, television shows, and his own experiences as a parent, Bomback charts the cultural history of parenting as a skill to be mastered from the laid-back Dr Spock's 1950s childcare bible in some years outsold only by the actual Bible to the more rigid training schedules of Babywise. Along the way, he considers the high costs of commercialized parenting from the babymoon on the pressure on mothers to have it all and do it all, scripted parenting as laid out in *How to Talk So Kids Will Listen*, parenting during a pandemic, and much more. **Secrets to Success for Professionals in the Autism Field** Gunilla Gerland, 2012 Writing with the insight

of someone on the autism spectrum but also as an experienced autism professional, Gunilla Gerland offers a fresh and original perspective on autism as well as a wealth of new tools and interventions to use in practice with children and adults.
