Atwater, 1919 This series of bulletins on the selection of food discusses briefly those principles of nutrition which the housekeeper should understand in order to plan meals wisely and economically They do not attempt to give definite suggestions for obtaining food at low cost nor recommend any special foods or combinations of foods This bulletin deals with food materials which are rich in protein and tells why the body needs this nutrient and how much is supplied by different foods Since the protein foods include many of the more expensive foods in common use and since an adequate supply of protein is essential to the growth and upkeep of the body it is especially important for the housekeeper to know how much her family needs and to be able to choose the materials which in her particular circumstances will best provide the proper kind and amount p 2 FARMER'S BULLETINS NOS. 801-825 U.S. DEPARTMENT OF AGRICULTURE, 1919
